

COURSE AND ASSESSMENT OUTLINE

SIS20419 CERTIFICATE II IN OUTDOOR RECREATION

This qualification is delivered via a blended model that includes learning in a classroom-based environment by qualified trainer/assessors, Self-Study and Work Placement.

The course is delivered unit by unit in the order outlined below. The first session of the training program focuses on inducting the student into the RTO and training program. The trainer provides each student with a training plan and takes their time to explain each of the Blocks, the units of competency and the training to be conducted during the program. The training program is delivered with a blend of verbal instruction, Power Point presentation, demonstration, instructions and practical tasks.

Year	Term	Week	Unit Code	Unit Title	Topic	Assessment & Activities
1	1	1-10	HLTWHS001	Participate in workplace health and safety	Occupation Health and Safety Complete power points 1-23 Occupation Health and Safety Complete power points 24-46 Occupation Health and Safety Complete power points 47-67 Occupation Health and Safety Exercise potential risks Occ Health and safety assignment Written answers Occ Health and safety assignment Generic smart move certificate Occ Health and safety assignment Hazards checklist	Oral/written responses Observation/demonstration
