

WELCOME TO THE TERM 4 NEWSLETTER

Term 4 is always a very busy time for staff and students with course completion, exams, sports finals, carnivals, concerts, exhibitions, reports, graduations, welcomes and farewells to cram into an already very crowded schedule – all the more so this year due to a whole range of unplanned but necessary cancellations and postponements from earlier in the year through the impact of the COVID 19 pandemic.

This newsletter showcases a whole range of activities, achievements, milestones and accomplishments of our amazing student body at CVC – and the staff who work tirelessly to support them to achieve their goals and dreams. Term 4 also culminates in the Year 12 Graduation. This group of students can be very proud of many things, not the least of which is the great resilience they have shown throughout this extraordinary year. Well done to all of our Year 12 students for successfully completing their WACE and associated courses of study (ATAR, General or VET) and we wish you the very best in the future.

In closing, we hope you enjoy reading about all of the accomplishments, shows, exhibitions, classes, challenges, camps and celebrations undertaken here at CVC over the last term and wish everyone in the Canning Vale College community a very safe and happy vacation period.

Alyvia and Madison Complete Certificate IV

Congratulations to Alyvia Iuculano and Madison Eccles who both complete a Certificate IV in Education Support while also completing Year 12.

Both Alyvia and Madison can now use this qualification to work in the Education Support area and also as a pathway into University, in the Teaching field, while also working as an Education Assistant.

Students Benefit From Project Peaceful Mind Classes

This week we acknowledged Mental Health Week with a series of Mindfulness based classes for students from Yogazeit. This year the theme for Mental Health Week was Strengthening Our Community - Live, Work, Play, with the aim of increasing mental wellbeing in WA communities. The events of recent times have brought the social determinants of mental health into sharp focus, so it's important to be aware and safeguard these factors of mental health, both during and after the COVID-19 pandemic has passed.

Mindfulness is the ability to be fully present in the moment without judgement or distraction. Students began each class with techniques to focus on their mindfulness in complete silence, and then were asked to focus on a reoccurring sound made by the instructor. Students were then shown a series of simple yoga moves, which they practised with the instructor, then on their own.

Djaama Prepares for WACE with UWA Physics Revision

Year 12 student Djaama Miad made valuable use of his school holidays by participating in the Aspire UWA Physics revision seminar. Djaama was awarded his certificate by our Head of Learning Area - Science, Mr Damian Millar

DRAMA TERM 4 UPDATE

We had a busy time in Drama preparing for our end of year showcases. Our year 10 student's performed scripted Duologues and did a fantastic job of bringing their chosen scripts to life. This was the final hoorah for some of these students after 4 years studying the craft and shining on the stage.

The year 9's had fun creating Children's Theatre performances, with animated character's, some music and passing on important messages to their young audience. A couple that we viewed were "Don't Judge a Dragon by its Scales" and "Stranger Danger". The year 8's performed "Goldilocks on Trial", which entertained their audience all the while transforming themselves in a comic fashion to Fairy Tale characters.

Year 7's focused on Medieval theatre learning about the three "M'S" and also performed one act plays transforming themselves into Angels in "The Mission" or an adaptation of "What could go wrong the night before Christmas", where we even had Santa grace the stage.

It was wonderful to be able to perform to a live audience again in 2020, all the students loved this opportunity to shine.

CVC Cadets Finish Term 3 with Well Deserved Camp

To finish Term 3 our Bushranger Cadets enjoyed three days at Dare Adventure Camp in Dwellingup. As would be expected, there was lots of singing on the bus as they departed school just before 9am. The students arrived and set up their tents like proficient campers. The camp involved a range of fun, skill and teamwork activities, such as an obstacle course, orienteering and abseiling. As usual the Cadets also participated in nature conservation activities such as helping to clean up the dam. The teamwork and enthusiasm abounded as they cheered each other on to overcome obstacles and even challenged themselves in the mud pit crawl.

They ate burgers and cinnamon apples cooked over the coals of the camp fire. Some studying happened, but there was guitar lessons and lots of laughter. It rained intermittently, but it didn't spoil the mood. The Cadets displayed some exciting moves on the flying fox- upside down was the challenge of the day. In between activities, they also managed to practise volleyball spikes and basketball shots. To keep warm there were lots of hot two-minute noodles and warm milo. The camp was an amazing success and thoroughly enjoyed by all students. We look forward to the next adventure in Term 4!

Learning the Circulatory and Respiratory Systems

Year 11 ATAR Biology students have been studying the circulatory and respiratory systems in different animals, culminating with a dissection of a fish. The fish dissection allowed students the opportunity to get a close up view of these structures, including their feather-like gills, something we all know fish have, but most people would never have seen.

Students also located the swim bladder which allows fish to operate like submarines, moving up and down at will. The students had a great time finding all the different parts of the fish as they dissected it. Fish and fish heads for this experiment were kindly donated by Dominic at Curulli's Seafood located at the Vale Shopping Centre on Warton Road.

ESPORTS TERM 4 UPDATE

The Esports Club continued to meet on Wednesday mornings and it was so wonderful to see so many new faces and friends come to join us. We continued to utilise the equipment in the SL6 Computer Lab to our benefit, continuing to play many Nintendo Switch games such as Super Smash Bros, Mario Kart and Mario Party. Other students opted for upskilling themselves playing the rhythm game, Osu, while others explored Minecraft and some even explored some retro games!

Due to the challenges of students not having access to some of the games they would play at home while at school, the committee, led by Club President Jordan Hylands (Yr 10), have discussed at length how we continue to support the gamers of the school.

We have decided to rebrand to the CVC Gaming Club in 2021, with hopes of a more inclusive environment for all students and staff next year.

We are looking forward to also including tabletop board games and TGC's (trading card games), with students already showing an interest in Pokémon, Dragonball, Yu-Gi-Oh! and Magic: the Gathering.

Thank you so much for all of the students involved, the committee members and the support of Mr Daniel Holmes who has shown weekly that he is the king of Super Smash Bros.

Miss Piccioni (Digital Technologies Teacher and Esports Coordinator)

Geography Excursion to Fremantle

Year 11 General Geography students have been studying the potential and impact of tourism to a region, regarding its natural and cultural characteristics and its sustainability, with an excursion to Fremantle. Seventeen students accompanied by Miss McCathie, Miss Bajada and Mrs Towers left Canning Vale College for Fremantle, their first stop being Fremantle Prison, where they could apply their acquired knowledge. At the prison, our guide Courtney helped us discover the history of Fremantle Prison from its construction in the 1850s until the end of the convict era in 1886. We found out why almost 10,000 men were transported from Great Britain and Ireland, how they built their own prison and helped shape the future of Western Australia. We visited the cells, metal works yard, prison garden, exercise yard and the flogging post. From there we walked past the Fremantle Oval, Fremantle markets, backpackers, Esplanade hotel, Esplanade reserve and Notre Dame University whilst noting down transport options, eateries, types of tourism and how sustainable the tourism activity is to Fremantle.

We had a delicious lunch at Cicerellos and made our way to the Round House. The Roundhouse is the oldest public building in the State of Western Australia. Opened in January 1831, just 18 months after settlement, it was built to hold any person convicted of a crime in the settlement and was used until 1886. After it ceased being used as a gaol it became a Police Lock-up until the late 1890s and then was used as accommodation for the Water Police, and afterwards as a storage facility for Fremantle Ports. When threatened with demolition in the 1920s it was saved, and later control went to the State Government before it was deeded to the City of Fremantle. At 1pm we were present for the firing of the canon. An enjoyable, fun day was had by all, maybe a little tired from all the walking though. The weather was glorious, the sun was shining and the sea breeze was in to cool us down. The students' behavior was exceptional; they showed respect at the highest level and did themselves and the school proud. Fremantle is colonial history by the beach so come and visit for yourself sometime.

Interschool Athletics Carnival

CVC had some stellar performances at the Interschool Athletics Carnival this week, which was held at the WA Athletics Centre. Year 10 boy Aiden Duncan, had outstanding performances in his events and celebrated with wins in the A division 100m, 200m and 400m sprints.

Jordan Hamilton from Year 7 also had a successful day winning his A division long jump, and 200m, and second in the 100m. Well done to all our athletes who competed on the day.

Year 12 Students Finish Their Formal Schooling Years

On Monday we said farewell to our Year 12 cohort, as they officially finished their secondary education at CVC. In 70's and 80's dress, their day started with breakfast at the College Cafe, before some fun and games on the lawn, including information tents to provide help and advice as they begin their new life outside of school. The Year 12 students then attended a moving assembly where they were warmly welcomed by their Year 10 and 11 peers before speeches from Principal, Mr Paul Bottcher, and College Captains Caleb Burah and Holly Peberdy.

Caleb and Holly delivered their final address to the cohort, expressing appreciation to the staff at CVC along with a few humorous stories. Year 12 students then began their exit from the school grounds through a whole school formed colonnade, from leaving the assembly until they reached the school gates. We wish all the Year 12's the very best for their future endeavours.

Students Complete Certificate II in Building and Construction

Jack Thomas and Declan Sanderson have recently graduated from their Certificate II in Building and Construction - Para Professional at South Metro TAFE, while being supported and mentored by the Construction Training Fund.

Both students have been busy focusing on this scholarship program over the past two years and on completion now puts them in good stead for a future in the industry. Declan will continue on with a Certificate IV in Residential Building Drafting at Central TAFE in 2021. Congratulations boys!

A Job Well Done - Year 11 ATAR English Students

Ms Jeewa was so impressed with the work from her Year 11 ATAR English class today she wanted the world to see.

Students worked in small groups to write an extended answer response, in relation to a given text, on the classroom whiteboards.

It was fantastic to hear such insightful discussions as they worked collaboratively to produce their answers. Well done to the following students: Group 1 from left: Liam Borgers, Katie Mobilia, Nikitha Tanubuddi, Minghao Wang, Daniel Pham. Group 2 from left: Ellie Tshibumbu, Thomas Booth, Lydia Jones, Aden Clark. Group 3 from left: Liam Carroll, Yihao Liu

Student's Designs On Show For All To See

Our Year 11 and 12 Certificate III Design Fundamentals students have put together a fabulous display of their creations in the Agonis Building in Gosnells. The Certificate III Design Fundamentals course is completed over two years, and the students are challenged with a number of design and creation problems that introduce them to the processes and applications of creating original wearable pieces, to a set theme or influence.

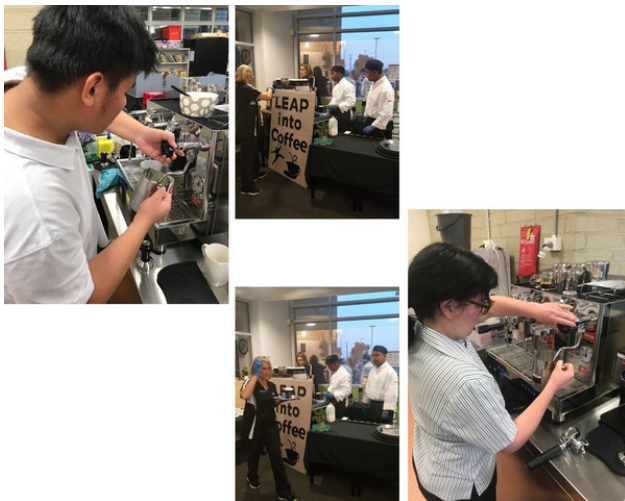

The themes our students selected to springboard their ideas was Fairy Tales and Fables. Here the students considered their options of stories and decided how to interpret that into a piece of wearable art. This exhibition is open to the public in the Whitely Room of the Agonis Building, and our students would love for our college community to support them in coming along for a look.

Janeeta Codes

LEAP Into Coffee

CVC was recently successful in their application for an Australian Government Local Schools Community Grant. The grant money received was used to purchase a mobile coffee machine for our hospitality course. This is a great initiative enabling students to make barista specialty coffees, in addition to developing their communication skills, teamwork, and customer interactions. All of these skills help in building the students' confidence, which is fantastic to see.

Year 9 student Janeeta Chowdhury successfully applied for the She Codes Flash Workshop, during the last school holidays. Janeeta was one of only 16 young women to be selected from over 1000 applicants for the workshop. This highly competitive application process saw Janeeta win a placement, which is valued at \$3200. The program was an intensive week of learning web design with HTML/CSS, Javascript and hardware programming with micro:bits.

Janeeta worked in groups, in pairs and individually across these areas. She Codes is about teaching women coding skills, getting women into technical careers and building communities of like-minded women. Janeeta said she learnt a lot over the course of the week and enjoyed the experience. Congratulations Janeeta for your initiative and drive.

Sean Awarded a Certificate II in Civil Construction

Congratulations to Sean Coetzee who recently graduated from Motivation Foundation (Ertech Construction Academy) with a Certificate II in Civil Construction. Year 11 and 12 students who join the two year program undertake a combination of structured, nationally recognised training and workplace operations experience over one or two days a week.

The workplace operations training covers a wide range of activities from the basics of occupational health and safety, duty of care responsibilities, installation of underground services through to the operation of large mobile earthmoving plant. Any student who is interested in applying for this program in 2021, please see Mrs Govorko in the VET Office.

CVC Dominates at Junior Volleyball Championships

Congratulations to our junior volleyball teams, with three out of the four teams finishing first in the Junior State Championships. All teams played in a round robin competition for the Junior State Volleyball Championships held at Warwick Stadium on Tuesday this week.

Our Year 8 girls finished in 3rd place to advance through to the finals, with Ashlee Gibbs and Chloe Chan playing outstanding volleyball. Our girls then went on to win against Kiara College in the Semi Final, but then went down to Shenton College by 3 points in the final set of the Grand Final.

Our Year 9 girls team finished the round robin competition on top and went on to win their Grand Final in two straight sets against Duncraig. The Year 9 boys also finished the day on top, winning all games and defeating Butler by two straight sets in the Grand Final. Ashley Mobilia, Dakota Tynan-Hislop played well for the girls, and Jaganjot Singh and Iason Loh put in fantastic performances for the boys.

The boys Year 8 team also won their competition with Aidan Tay, Rafey Fida and Max Hill digging deep when the team needed it.

A big congratulations to all of our junior team volleyballers. This is an outstanding result, and shows the strength of the sport at CVC.

Local Primary Schools Get to Experience High School

Students from local primary schools are taking part in our Science Outreach Program, over the next four weeks. This week the Year 5 students participated in a Biology class, where they examined dissected bones, to investigate what's inside. Students were surprised to learn the difference between red bone marrow and yellow bone marrow, and their functions within the body.

After the bones were examined, students worked in pairs to discover Euglena under the microscope. Euglena are tiny organisms from a group called Protista, and are found in pond water. They move around using a tail-like structure, which the students could see under the microscope, as they appeared to be swimming around the slide. Next week the Year 5's will experience a Chemistry class, before a STEM class to finish off the program.

Yr 9 Earthquake Tower Challenge

Students put their design and construction skills to the test by constructing a tower to try and withstand an earthquake. Students were limited to 1 cardboard base, 50 paper straws, 40 paper clips, 20 pipecleaners and a small roll of sellotape, and could be as creative as they wanted with the shape and design.

Once constructed, each group's tower was challenged to undergo a simulated earthquake on the 'shake table', with added weights. After successfully surviving each earthquake, incremental weights were added until the tower collapsed. One group succeeded in building a tower that supported more than 4kg in addition to surviving a large earthquake.

Remembrance Day

Members of our Year 7 cohort have been busy during their spare time making red paper poppies to create a visual representation of 'In Flanders Fields'.

Members of the Student Council lowered the flags to half mast in recognition of the sacrifice of all those who have died during war.

Amritha Addresses Patrons of the Zero2Hero Red Cape Ball

Last weekend our very own Year 11 student Amritha Chetty attended the Zero2Hero Red Cape Ball where she was invited to speak on behalf of Camp Hero. Amritha attended Camp Hero for five days during the last school holidays, at Nanga Bush Camp in Dwellingup, along with 39 other 15-18 year olds from around WA.

Amritha first heard about Camp Hero from a fellow CVC School Council member who had been to the camp herself, and found it life changing. Amritha decided she wanted to be part of something bigger and become the best possible version of herself, to learn from the camp and apply those skills to everyday living. She is now prepared and motivated to achieve everything she wants in life, the first being recently named a College Captain for 2021.

The Red Cape Ball is a major fundraising event for the Zero2Hero Foundation, held at Optus Stadium with over 700 people in attendance. Amritha and her mother were special guests of the evening as Amritha was chosen to be the voice of the camp, and present her experiences to the audience. With a few nerves to begin with, Amritha addressed the room confidently and spoke clearly.

Amritha looks forward to drawing on her experiences and skills gained at camp into bettering the school community. 'This camp has become an integral part of who I am now, and will be in the future, I would highly recommend this camp to anyone who is able to go, it could be the turning point in their lives'.

Congratulations to Our Boys in The WA All Schools Track and Field Championships

Jordan Hamilton from Year 7, Declan Somers Year 8 and Year 10 student Aiden Duncan were all selected to represent CVC at the recent WA All Schools Track and Field Championships, held at the State Athletics Stadium.

The boys competed very strongly with Aiden finishing second in the 400m hurdles, and Declan also placed second in the 2000m steeple chase and 8th in the 1500m. Jordan finished second in the 100m, 200m and 400m sprints and placed third in the long jump.

All three boys also went on to be selected for the WA State All Schools Athletics team, but unfortunately due to COVID there will be no Australian All Schools Championships this year. Congratulations boys, a terrific result!

Students Experience the Grim Reality Of The Holocaust

On Wednesday the 11th of November, the two General and ATAR Modern History classes went on an excursion to the Holocaust Institute of WA in Yokine. In correlation with the topic of Nazi Germany (and the politics involved in Hitler's reign) that the students had already been learning in class, the Holocaust Institute further explored these topics on a personal and emotional level.

Upon arrival, the students were asked to listen to a presentation of the events they had studied and to participate where required. In the midst of the presentation and discussion, the students were urged to engage in two specific activities. The introductory activity involved particular human rights that the Jews were denied of. Pieces of paper listing these human rights were put up around the room, and the students had to stand in front of the one that was most important to them and explain why they chose it.

The subsequent activity consisted of being assigned a family name and then finding the matching suitcase. In these groups of approximately 3 to 5 people, students were given the names, ages and professions of each member of the family. They were asked to write down ten items that the family would bring if they only had 10 minutes to gather their belongings. Other minor activities involved further exploring the museum and the historical photographs, clothes and books (like the original Mein Kampf written by Hitler and children's literature that was essentially a form of propaganda).

The students were also privileged in listening to a Holocaust survivor, who explained her experience and the way in which she had survived. As a whole, this experience was very valuable to the students and evoked an emotional response from the collective group. It was essentially an eye-opener to the fact that these events did affect a vast majority of people and that it will continue to live with them forever.

Article written by Cara Roberto Year 11 General Modern History student.

Students Get Digitally Creative At Murdoch University

Students from Year 9 Digital Art and Visual Art Extension were invited to Murdoch University to meet with students and staff from the Creative Industries Programs and try their hand at some projects.

Students worked in two of the labs, using the MAYA animation programs to bring a 'rig' (the character) to life. They also worked with a recent graduate from the Digital Arts program at Murdoch where she guided them through a number of challenges using Pixel Art. In the afternoon the students met with a lecturer from the Graphic Design course who took them through an activity in thinking creatively. During this, we discovered that not only do we have some creative, original thinkers, but some hard core Star Wars fans.

The students had to think of ways to make public transport more engaging and then develop a themed bus. I look forward to having a bus that as it opens its doors, reminds me that 'Luke, I'm your father'! The students presented themselves in a mature manner and were very engaged in all the activities. It was a pleasure to organise this and to provide the opportunity for them to see the bigger picture of what is available in the Arts.

Ms Erin Roberts Head of Learning Area - The Arts

Year 12 Valedictory Ceremony for 2020

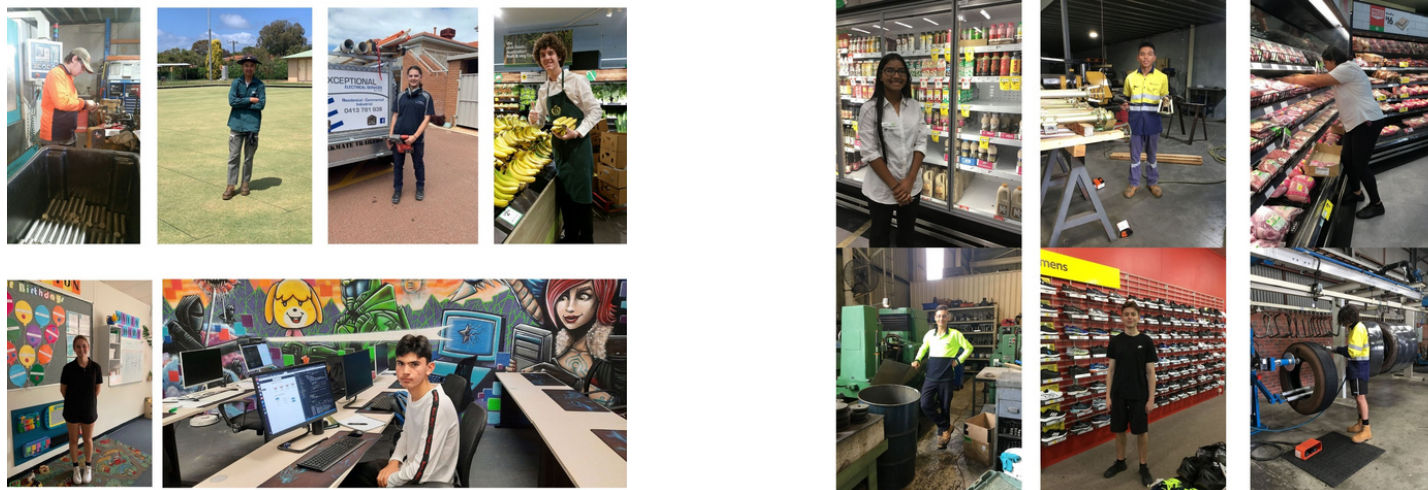

Our Year 12 Outdoor Recreation classes recently returned from camp in Dwellingup, being one of the first to experience the new mountain bike trails there. The students rode extremely well over different terrain and navigating log rolls, rocks, narrow passes and jumps through the Marrinup and Murray Valley.

They spotted an echidna on the trails, trying desperately to blend in to his surrounds on the first day of riding and on the second day the students enjoyed a relaxing picnic at Lane Poole Reserve with some students even braving the icy cold water and jumping in the river for a swim.

They all enjoyed the real camping experience by being out in the middle of the bush, braving the elements and having camp fires at night to help with the cold weather. I'm sure there were toasted marshmallows to add to the experience!

Students Complete Workplace Learning

Our Year 11 students have attended a wide range of workplacements over the past two weeks, including child care, primary schools, fabrication, electrical and a range of retail stores. They are to be commended for their personal conduct and work ethic, with a large number of employers praising their efforts. Congratulations on a job well done!

Our Year 11 ATAR and Year 10 students have also been attending workplace learning. Students were placed in a variety of industry areas, from retail and commercial to industrial. The students had a great time and are to be congratulated for their fantastic work ethic.

Act Belong Commit CVC Circus Troupe Perform to Primary School Audiences

Our very talented Circus Troupe have spent the past two days performing at local primary schools, to provide some fun and entertainment as we finish off the school year. Our performers have received outstanding praise for their showmanship and talent, and their ability to engage the entire audience.

"The acts were amazing and our students thoroughly enjoyed it. The skill level and showmanship of the performers is outstanding, and to put together a show at short notice is nothing short of amazing. The audience was engaged the whole time from the Kindergarten students to the Year 6s."

Principal - Maddington PS

"I was so impressed with the different individual skills the CVC Circus students have mastered. They were at high standards for acrobatics and juggling and clowning. For me, however, it was the actual performing skills that were so polished. The confidence and obvious experienced nature of the group which gives them the ability to 'carry on' as not everything goes as practiced with live audiences and different environment."

Music Specialist Teacher - Willandra PS

Callum Woods Features in International Day Of People with Disability For NDS

Year 12 student Callum Woods featured in a campaign for National Disability Services to acknowledge International Day of People with Disability, this week. Callum is a very talented artist, who in collaboration with disability support worker, John Holdcroft is planning to create a Fanzine to showcase his talents and love of movie and comic book characters.

Callum has created an Instagram page for his artwork. Check it out at @callum_draws_cool_stuff

If you'd like to read more about what Callum has been up to in relation to his drawing, Callum features on Day 2 of the campaign. You can view the NDS story here: <https://www.nds.org.au/resources/international-day-of-people-with-disability-stories-in-wa>

Year 7 Boys Night In

Last week we were fortunate to be able to reschedule the Boys Night In, that was originally planned for Term 1. We had 75 boys in attendance who enjoyed activities such as volleyball, soccer, basketball, board games and sumo wrestling, before enjoying pizza for dinner.

It was a lovely evening that was well attended by teachers, Year 10 PEER Leaders, Student Engagement and Support Staff.

The boys are to be commended for their engagement and participation, they all looked like they had a fabulous time. It was a pleasure to be able to finally hold the event after it being postponed.

Year 7 Entrepreneuers

Year 7 HASS have been studying Economics this term, and have done some amazing work as part of their Entrepreneurship topic. Amalia Caldieraro and Breana Reynolds have even started their own micro business. The pair are making their own hair scrunchies and selling them for a profit to friends and family.

The hair scrunchies are selling for around \$3 and the girls are taking a modest cut, putting most of the profits towards growing their business. The budding business women are planning for the future, and during the holidays Amalia has said she plans to learn how to use her mum's sewing machine to reduce the time it takes to make their products.

LEAP Cadets Nuture Vegetables and Herbs to Donate to Charity

Our LEAP Cadet students have been researching and learning about seasonal produce, including planting, watering and picking, and have produced a healthy vegetable and herb garden at the college. As the end of the year is fast approaching, our students didn't want the fruits of their labour go to waste, so they decided to donate all of their produce to a worthy cause.

Zonta House Refuge Association supports women who have experienced or are experiencing domestic violence, and can provide a refuge and transitional accommodation, holistic support and education for all women. If you would like more information about Zonta House go to: www.zontahouse.org.au

Students helped replant every one of the vegetable and herb plants from the garden into pots for ease of distribution to Zonta House. Students held an official handover of the garden items to Natalie from Zonta House, where she was very appreciative and said they would go to great use by women in their support.

"At Canning Vale College we build into our College Ethos of "Creating Futures" a desire for every student, in transitioning to life after school, to contribute responsibly and positively to society. Our LEAP students have been involved, through our Bushranger Cadets Program, in growing sustainable plants including vegetables and herbs. Donation of these plants is an example of the value of responsible and positive contribution to the wider community developed throughout day to day college programs and college life." Mr Paul Bottcher Principal

Languages Lunch for Year 9's

This week Year 9 Languages students were able to enjoy a meal together as the final part of their earlier studies about eating out.

Italian Language students sampled pizza, pasta and tiramisù at Bistro Bellavista. There were some amazing dishes with students struggling to choose a favourite between spaghetti alla carbonara and pizza margherita.

Our Indonesian Language students dined at Manise Cafe and tried a variety of lauk-pauk (side dishes) with a very traditional nasi kuning (yellow rice). The sate ayam were popular as was the dessert - dadar gulung - green pancakes with coconut and sugar. Students placed their own orders with the staff at the cafe, speaking in Indonesian and were excellent representatives of CVC.

Act Belong Commit CVC Circus Troupe Wow Crowds at the Christmas Pageant

Members of our Act Belong Commit CVC Circus Troupe were an amazing spectacle as they walked the route of the Channel 7 Alinta Gas Christmas Pageant last weekend.

The Troupe performed little skits along their way, alongside teachers Crystle Challenger, Erin Roberts and Lee-Ann Patterson, to an audience of 25,000 people.

New Student Council Members Organise Food Drive For Starick Charity

Our new 2021 Student Council members have hit the ground running with organising a special food drive for the Starick charity.

Starick supports women and children escaping domestic and family violence, and our Student Councillors have been gathering non-perishable food items and Christmas fare to help make their Christmas extra special this year.

Congratulations To All Of Our End Of Year Award Winners

Last Friday and again on Monday we recognised the outstanding academic and sporting performances of our students across each year group. See below for a full list of our award recipients.
