Course Selections

All Course selections are completed using the Subject Selection Online system. Instructions on how to access and use SSO will be issued via the email address of the primary Parent/Guardian as recorded in our school records. Please ensure these details are up to date.

1. On the school website <https://cvc.wa.edu.au/> under the Teaching & Learning / Upper School / Year 11 Tab students will be able to access:
 - The link to the SSO Login screen on prescribed dates;
 - The Year 11 Course Information Handbook, which contains overviews of the courses available for selection, together with course prerequisites;
 - The Year 10 Information Handbook which contains information for students currently enrolled in Year 10. This is a SCSA publication which is designed to provide a reference point for studies in Year 11 and 12, with particular reference to the WACE (Western Australian Certificate of Education).
 - Information regarding VET, Careers and Workplace Learning;
 - The proposed Year 11 2021 Grid.
2. Using the SSO program students select their Courses.
3. After SSO closes preferences will be collated and decisions will be made about which courses will be running in 2021. Courses that do not attract sufficient numbers will not run. Once this is decided class groups will be created according to student selections. Whilst we try to place students into their most preferred courses some students may not be allocated their highest ranking choices in which case they will be placed in one of their reserve subjects.
4. In December, once all of the classes, staff and room allocations for 2021 are completed, an invoice will be sent to each family which will include the courses that their child is enrolled in for the following year.

ENGLISH LEARNING AREA

Do I have to study English in Year 11 and 12?

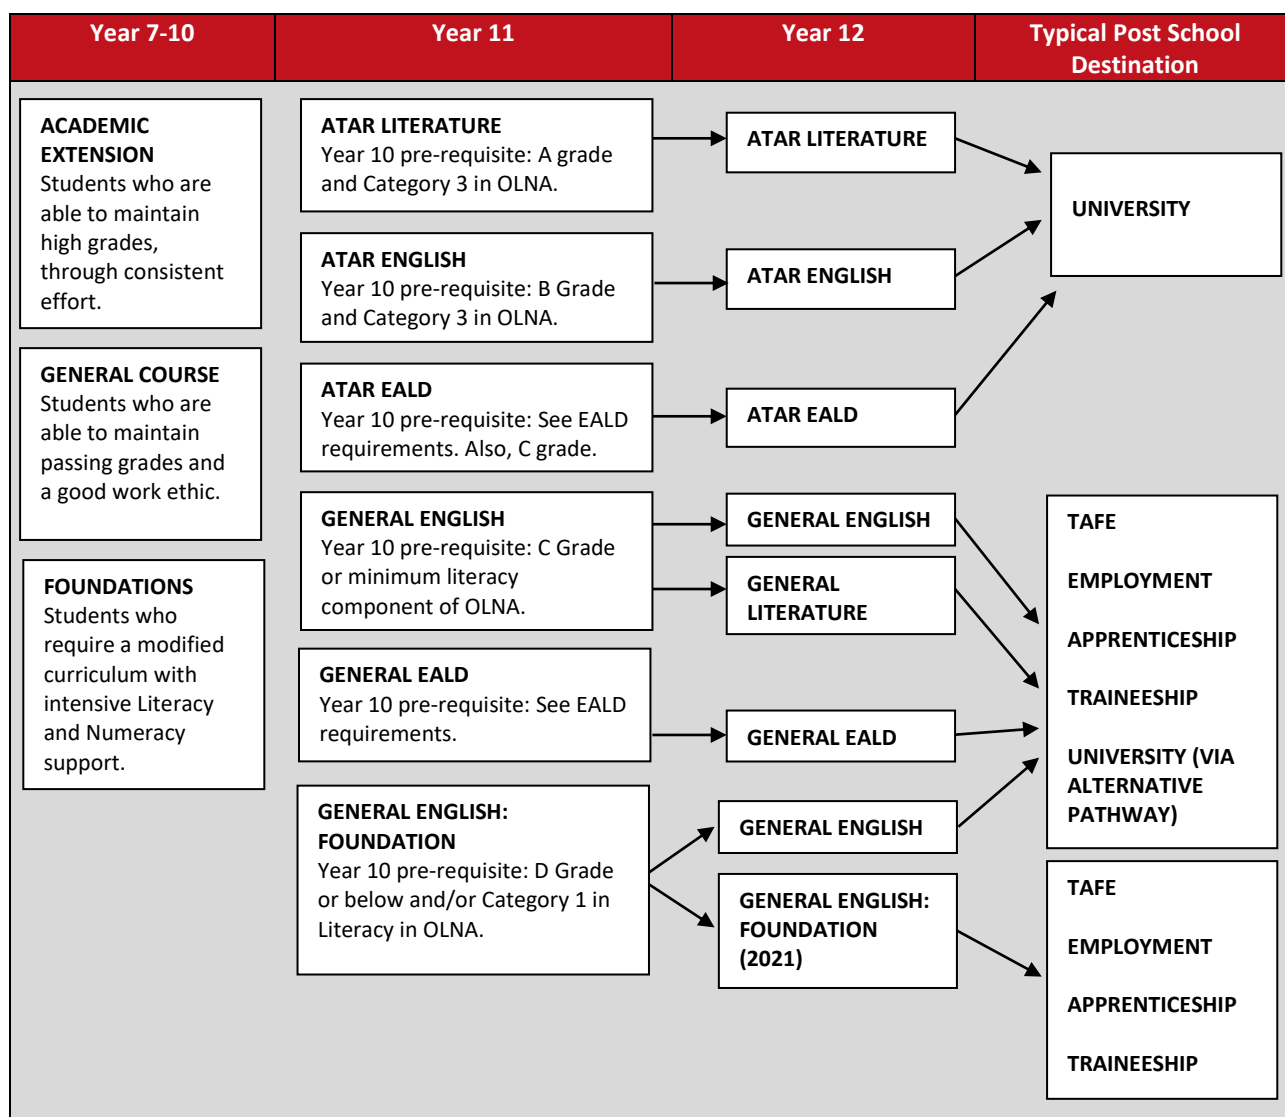

Yes, in order to meet the WACE (Western Australian Certificate of Education) requirements, it is compulsory for you to complete two Year 11 English, EALD or Literature units and one pair of Year 12 English, EALD or Literature units.

What is Literacy Competence?

Literacy competence is the term used by the School Curriculum and Standards Authority to describe a student's proven ability to demonstrate reading and writing skills that are essential for individuals to participate effectively in our society. At the end of Year 12 a student must achieve literacy competence in order to fulfil WACE (Western Australian Certificate of Education) requirements.

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

ATAR English Units 1 & 2

Requirements

- B grade or above in Year 10 English, plus achievement of Category 3 in OLNA.

What Is It All About?

The English ATAR course focuses on developing students' analytical, creative, and critical thinking and communication skills in all language modes, encouraging students to critically engage with texts from their contemporary world, the past, and from Australian and other cultures. Through close study and wide reading, viewing and listening, students develop the ability to analyse and evaluate the purpose, stylistic qualities and conventions of texts and to enjoy creating imaginative, interpretive, persuasive and analytical responses in a range of written, oral, multimodal and digital forms.

Why Should I Choose This Course?

Successful completion of this course in Year 11 will enable you to enrol in ATAR English the following year, which is a recommended course for those hoping to study at university. You will undertake a compulsory examination at the end of Year 12 which will allow you to generate an ATAR (Australian Tertiary Admission Rank).

Universities have approved the removal of the unacceptable combination rule for English ATAR and Literature ATAR, effective for the 2020 ATAR calculation onwards. This means that, if a student takes English ATAR and Literature ATAR, scaled scores from both courses can count towards their Tertiary Entrance Aggregate and ATAR.

CAREER POSSIBILITIES	FURTHER STUDY	
Prepares students for careers in a wide range of industries such as the arts, business and commerce, education, health, humanities, IT, law, science and engineering.	TAFE Allows students to demonstrate communication skills for TAFE entrance purposes.	UNIVERSITIES Allows students to demonstrate literacy competence for university admission purposes.

ATAR Literature Units 1 & 2

Requirements

- A grade in Year 10 English, plus achievement of Category 3 in OLNA.

What Is It All About?

In the Literature ATAR course, students learn to create readings of literary texts and to create their own texts, including essays, poems, short stories, plays and multimodal texts. Students engage with literary theory and study literary texts in great detail. Students learn to read texts in terms of their cultural, social and historical contexts; their values and attitudes; and their generic conventions and literary techniques. They enter the discourse about readings, reading practices and the possibility of multiple readings. Students learn to create texts paying attention to contexts, values and conventions. Students learn about literary language, narrative, image and the power of representation. Students experience the aesthetic and intellectual pleasure that reading and creating literary texts can bring.

Why Should I Choose This Course?

ATAR Literature is designed for students who have a passion for English. You will study classic writers such as F. Scott Fitzgerald and Shakespeare, as well as Australian authors like Tim Winton. Literature students get the opportunity to take their skills into the real world by attending theatre excursions and university lectures.

ATAR Literature is particularly valuable if you are interested in a career that requires strong reading, writing and public speaking skills. Successful completion of this course in Year 11 will enable you to enrol in ATAR Literature the following year, which is a recommended course for those students hoping to study at university. You will undertake a compulsory examination at the end of Year 12 which will allow you to generate an ATAR (Australian Tertiary Admission Rank).

Universities have approved the removal of the unacceptable combination rule for English ATAR and Literature ATAR, effective for the 2020 ATAR calculation onwards. This means that, if a student takes English ATAR and Literature ATAR, scaled scores from both courses can count towards their Tertiary Entrance Aggregate and ATAR.

CAREER POSSIBILITIES	FURTHER STUDY	
Education Book editing and publishing The arts (museums, galleries, films, television, theatre) Advertising/public relations Law Journalism (magazines, newspapers, television) Business Government	TAFE Allows students to demonstrate communication skills for TAFE entrance purposes.	UNIVERSITIES Allows students to demonstrate competence for university admission purposes.

ATAR English as an Additional Language or Dialect (EALD) Units 1 & 2

Requirements

The ATAR EALD course will be available to a student in Year 11 who is seeking university entrance at the end of Year 12 and:

- Whose first language is not English and who has not been a resident in Australia or another predominantly English speaking country for a total period of more than six years immediately prior to 1 January of the year of enrolment into Year 11, AND for whom English has not been the main medium of communication and/or instruction for more than six years immediately prior to 1 January of the year of enrolment into Year 11
- Who is Aboriginal or Torres Strait Islander, or from Cocos Island or Christmas Island, for whom Standard Australian English (SAE) has been the medium of instruction, but for whom SAE is an additional language/dialect, and whose exposure to SAE is primarily within the school context
- Who is deaf or hard-of-hearing and communicates using signing, such as Auslan, as their first language

Also, a C grade or above in Year 10 English and Level 5 Early Adolescence EAL/D Progress Map.

What Is It All About?

The EALD courses are designed for students who speak another language or dialect as their first or 'home' language. EALD focuses on development of the competent use of SAE in a range of contexts. The EALD ATAR course develops academic English skills to prepare students for tertiary study.

Why Should I Choose This Course?

Successful completion of this course in Year 11 will enable you to enrol in ATAR EALD the following year, which is a recommended course for those hoping to study at university. You will undertake a compulsory examination at the end of Year 12 which will allow you to generate an ATAR (Australian Tertiary Admission Rank).

CAREER POSSIBILITIES	FURTHER STUDY	
Business and commerce Education Health Information technology Science and engineering	TAFE Allows students to demonstrate communication skills for TAFE entrance purposes.	UNIVERSITIES Allows students to demonstrate literacy competence for university admission purposes.

General English Units 1 & 2

Requirements

- None specified but achievement of the minimum standard in the literacy component of the Online Literacy and Numeracy Assessment (OLNA) is desirable.

What Is It All About?

The English General course focuses on consolidating and refining the skills and knowledge needed by students to become competent, confident and engaged users of English in everyday, community, social, further education, training and workplace contexts.

The course is designed to provide students with the skills to succeed in a wide range of post-secondary pathways by developing their language, literacy and literary skills. Students comprehend, analyse, interpret, evaluate and create analytical, imaginative, interpretive and persuasive texts in a range of written, oral, multimodal and digital forms.

Why Should I Choose This Course?

Successful completion of this course in Year 11 will enable you to enrol in General English the following year, which is a suitable course for students seeking to demonstrate communication skills for State Training Provider admission purposes.

CAREER POSSIBILITIES	FURTHER STUDY	
Arts, sport & recreation Business, finance & property Education Fashion & textiles Health & community services Information technology Science Tourism Youth work	TAFE Allows students to demonstrate communication skills for TAFE entrance purposes.	UNIVERSITIES Not applicable.

General English as an Additional Language or Dialect (EALD) Units 1 & 2

Requirements

The General EALD course will be available to a student in Year 11 who is seeking TAFE or workforce entry at the end of Year 12 and:

- Whose first language is not English and who has not been a resident in Australia or another predominantly English speaking country for a total period of more than six years immediately prior to 1 January of the year of enrolment into Year 11, AND for whom English has not been the main medium of communication and/or instruction for more than six years immediately prior to 1 January of the year of enrolment into Year 11
- Who is Aboriginal or Torres Strait Islander, or from Cocos Island or Christmas Island, for whom SAE has been the medium of instruction, but for whom SAE is an additional language/dialect, and whose exposure to SAE is primarily within the school context
- Who is deaf or hard-of-hearing and communicates using signing, such as Auslan, as their first language
- Whose first language is not English and was born outside Australia. Has been a resident in Australia or another predominantly English-speaking country for a total period of more than six years immediately prior to 1 January of the year of enrolment into Year 11, however, has not yet acquired a level of English that will allow the student to engage with any other English course.

What Is It All About?

The EALD courses are designed for students who speak another language or dialect as their first or 'home' language. EALD focuses on development of the competent use of Standard Australian English (SAE) in a range of contexts. The EALD General course prepares students for a range of post-secondary destinations in further education, training and the workplace.

Why Should I Choose This Course?

Successful completion of this course in Year 11 will enable you to enrol in General EALD the following year. This is a suitable course for students seeking to demonstrate communication skills for State Training Provider admission purposes, or for those who wish to enter the workforce or undertake an apprenticeship or traineeship.

CAREER POSSIBILITIES	FURTHER STUDY	
Animal care Automotive Beauty and fashion Business & finance Electrical Food and hospitality Hairdressing Health Information technology	TAFE Allows students to demonstrate communication skills for TAFE entrance purposes.	UNIVERSITIES Not applicable.

Requirements

Not having demonstrated the minimum standard in the literacy component of the Online Literacy and Numeracy Assessment (OLNA).

Students who demonstrate the minimum standard of literacy for the WACE in Semester 1 of Year 11 are not eligible to continue in the List A Foundation courses in Semester 2 of that year.

What is it All About

In Foundation English, students will develop skills in: functional literacy, including appropriate spelling, punctuation and grammar; reading (understanding, comprehending, interpreting, analysing) texts for work, learning, community and/or everyday personal contexts; producing (constructing, creating, writing) texts for work, learning, community and/or everyday personal contexts; and speaking and listening for work, learning, community and everyday personal contexts.

Why Should I Choose this Course?

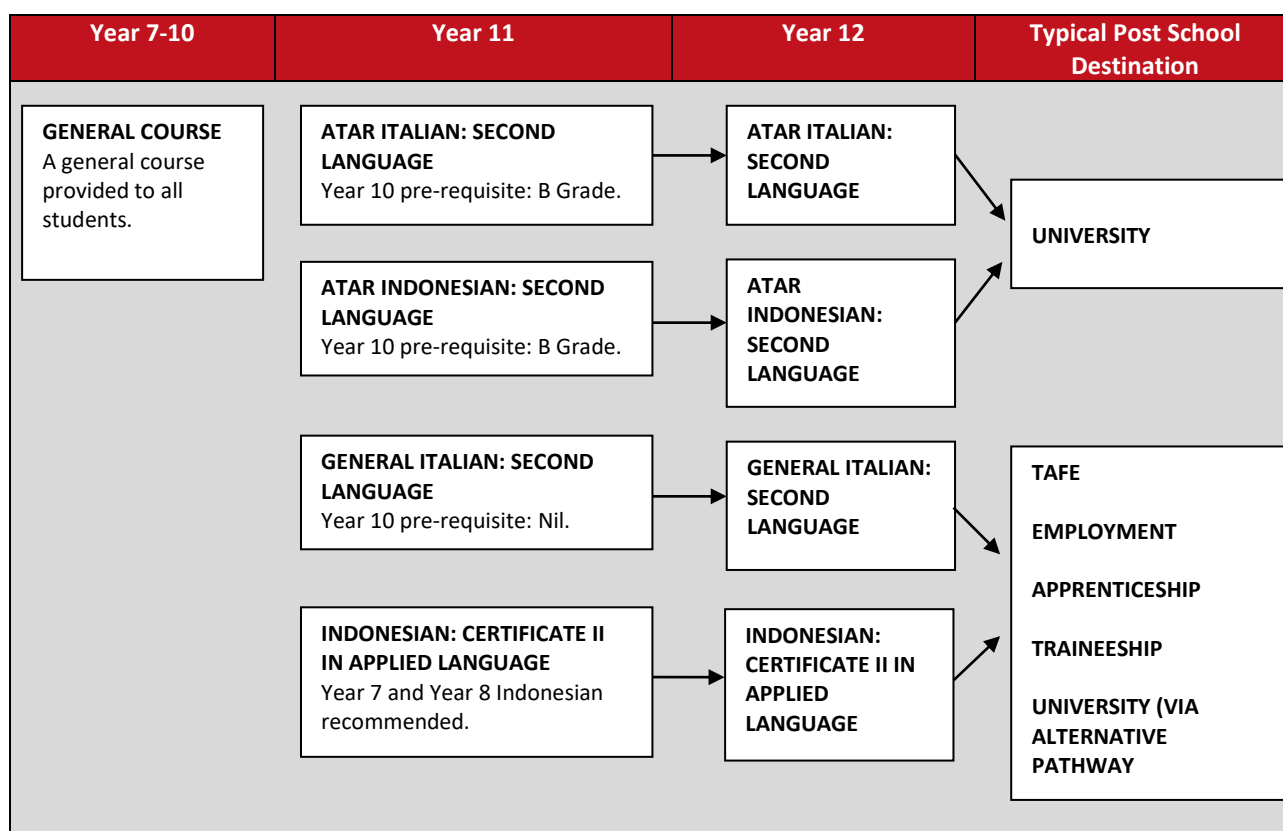

Successful completion of this course in Year 11 will enable you to enrol in Foundation English or perhaps General English in Year 12, once Category 3 in OLNA is achieved. This is a suitable course for students seeking to demonstrate communication skills for TAFE entrance purposes, or for those who wish to enter the workforce or undertake an apprenticeship or traineeship.

CAREER POSSIBILITIES	FURTHER STUDY	
Prepares students for careers in a wide range of industries such as: Animal care Arts, sport & recreation Automotive Beauty Building & construction Business, finance & property Children's services [Conservation & land management Electrical Fashion & textiles Food and hospitality Hairdressing Health & community services Horticulture Information technology Manufacturing Metals Retail Tourism Transport Youth work	Allows students to demonstrate communication skills for TAFE entrance purposes.	UNIVERSITIES Not applicable.

LANGUAGES LEARNING AREA

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

ATAR Italian: Second Language Units 1 & 2

Requirements

B grade in Year 10 Italian. Students also need to meet the following SCSA eligibility requirements to enrol in the Italian Second Language Course:

- Completed less than 1 year of education at a school where Italian is the medium of instruction (beyond the Italian classroom).
- Spent less than 2 years in total residing in Italy or Italian-speaking provinces of Switzerland.
- Only uses the language infrequently outside the classroom to communicate with a person who has a background in the language.

What Is It All About?

This course progresses from the Year 8–10 curricula, and focuses on further developing a student's knowledge and understanding of the culture and the language of Italian-speaking communities. Students gain a broader and deeper understanding of the Italian language and extend and refine their communication skills.

The ATAR Italian: Second Language course can connect to the world of work, further study and travel. It also offers opportunities for students to participate in the student exchange programs between Western Australia and Italy. The ATAR Italian: Second Language course is designed to equip students with the skills needed to function in an increasingly globalised society, a culturally and linguistically diverse local community and to provide the foundation for life-long language learning.

Unit 1 focuses on **Rapporti (Relationships)**. Through the three topics - *Rapporti in famiglia, tra gli amici e a scuola* (family, friend and school relationships), *Le tradizioni, gli spettacoli e le feste* (traditions, events and celebrations), and *Communicare nel mondo moderno* (communicating in a modern world) - students further develop their communication skills in Italian and gain a broader insight into the language and culture.

Unit 2 focuses on **Andiamo! (Travel – let's go!)**. Through the four topics - *Le vacanze - racconti e progetti* (my holiday tales and plans), *Destinazione Italia* (destination Italy), *Destinazione Australia* (destination Australia), and *Viaggiare oggi* (travel in a modern world) - students extend their communication skills in Italian and gain a broader insight into the language and culture.

Why Should I Choose This Course?

- You have an interest in the language and culture of Italy.
- You want to earn bonus marks towards your ATAR for entry to University.
- You want to develop your confidence and communication skills and improve your understanding of the English language.
- You want enhanced career prospects through having the knowledge of a second language.
- You want to participate in the student exchange program.

CAREER POSSIBILITIES	FURTHER STUDY	
Italian is a useful subject for a range of careers in which communication with people is important. These include careers in the fields of hospitality, tourism, medicine, science and engineering, education and the arts	TAFE Diploma Applied Language Studies	UNIVERSITIES Students can continue their language studies at university and it is possible to combine languages with courses from many other disciplines.

ATAR Indonesian: Second Language Units 1 & 2

Requirements

B grade in Year 10 Indonesian. Students also need to meet the following SCSA eligibility requirements to enrol in the Italian Second Language Course:

- Completed less than 1 year of education at a school where Indonesian or Malay is the medium of instruction (beyond the Indonesian classroom).
- Spent less than 2 years in total residing in Indonesia or Indonesian / Malay-speaking countries or places.
- Only uses the language (or a related language or dialect of the language) infrequently outside the classroom to communicate with a person who has a background in the language.

What Is It All About?

This course progresses from the Year 8–10 curriculum and focuses on further developing a student's knowledge and understanding of the culture and the language of Indonesian-speaking communities. Students gain a broader and deeper understanding of the Indonesian language and extend and refine their communication skills.

The ATAR Indonesian: Second Language course can connect to the world of work, further study and travel. The ATAR Indonesian: Second Language course is designed to equip students with the skills needed to function in an increasingly globalised society, a culturally and linguistically diverse local community and to provide the foundation for life-long language learning.

Unit 1 focuses on **Saat ini aku disini (Here and now)**. Through the three topics - Being a teen, what does it mean? Indonesian communities and Staying Connected - students further develop their communication skills in Indonesian and gain a broader insight into the language and culture.

Unit 2 focuses on **Bisa saya bantu? (Can I help you?)**. Through the three topics - My country Australia, On exchange, and Careers and travel - students extend their communication skills in Indonesian and gain a broader insight into the language and culture.

Why Should I Choose This Course?

- You have an interest in the language and culture of Indonesia.
- You want to earn bonus marks towards your ATAR for entry to University.
- You want to develop your confidence and communication skills and improve your understanding of the English language.
- You want enhanced career prospects through having the knowledge of an additional language.

CAREER POSSIBILITIES	FURTHER STUDY	
Indonesian is a useful subject for a range of careers in which communication with people is important. These include careers in the fields of hospitality, tourism, medicine, science and engineering, education and the arts	TAFE Diploma Applied Language Studies	UNIVERSITIES Students can continue their language studies at university and it is possible to combine languages with courses from many other disciplines.

General Italian: Second Language Units 1 & 2

Requirements

Students need to meet the following SCSA eligibility requirements to enrol in the Italian Second Language Course:

- Completed less than 1 year of education at a school where Italian is the medium of instruction (beyond the Italian classroom).
- Spent less than 2 years in total residing in Italy or Italian-speaking provinces of Switzerland.
- Only uses the language infrequently outside the classroom to communicate with a person who has a background in the language.

What Is It All About?

This course focuses on students gaining knowledge and an understanding of the culture and language of Italian-speaking communities.

The General Italian: Second Language course can connect to the world of work, further study and travel. It also offers opportunities for students to participate in student exchange programs and study between Western Australia and Italy. The Italian: Second Language General course is designed to equip students with the skills needed to function in an increasingly globalised society, a culturally and linguistically diverse local community and to provide the foundation for life-long language learning.

Unit 1 focuses on *Questo mio mondo* (here and now). Through the three topics - *Presentiamoci!* (let's introduce ourselves!), *La vita quotidiana dei giovani in Italia* (daily life of young people in Italy), and *La tecnologia nella vita quotidiana* (technology in daily life) - students develop communication skills in Italian and gain an insight into the language and culture.

Unit 2 focuses on *Cose da fare, luoghi da visitare!* (things to do, places to go!) Through the three topics - *Il mio quartiere* (my neighbourhood), *Lavoro e divertimento in Italia* (at work and at leisure in Italy), and *La tecnologia e il tempo libero* (technology and leisure) - students develop communication skills in Italian and gain an insight into the language and culture.

Why Should I Choose This Course?

- You have an interest in the language and culture of Italy.
- You want to develop your confidence and communication skills and improve your understanding of the English language.
- You want enhanced career prospects through having the knowledge of a second language.
- You want to participate in the student exchange program.

CAREER POSSIBILITIES	FURTHER STUDY	
Italian is a useful subject for a range of careers in which communication with people is important. These include careers in the fields of hospitality and tourism, education and the arts.	TAFE Diploma Applied Language Studies	UNIVERSITIES Students can continue with entrance level language studies at university and it is possible to combine languages with courses from many other disciplines. Contact the universities for more information.

Indonesian: Certificate II in Applied Language

Requirements

- It is recommended that students have previously had some study in Indonesian in Years 7 and 8

What Is It All About?

This course is designed to provide students with language skills and intercultural knowledge to enable them to communicate in social and workplace situations in Indonesian.

Students will be able to communicate in simple and basic tasks requiring a simple and direct exchange of information and opinions including: conducting basic oral communication for social and workplace purposes in Indonesian and reading and writing basic documents for social purposes and writing workplace documents in Indonesian.

Why Should I Choose This Course?

- You have an interest in the language and culture of Indonesia
- You want to develop your confidence and communication skills and improve your understanding of the English language.
- You want enhanced career prospects through having the knowledge of a second language.

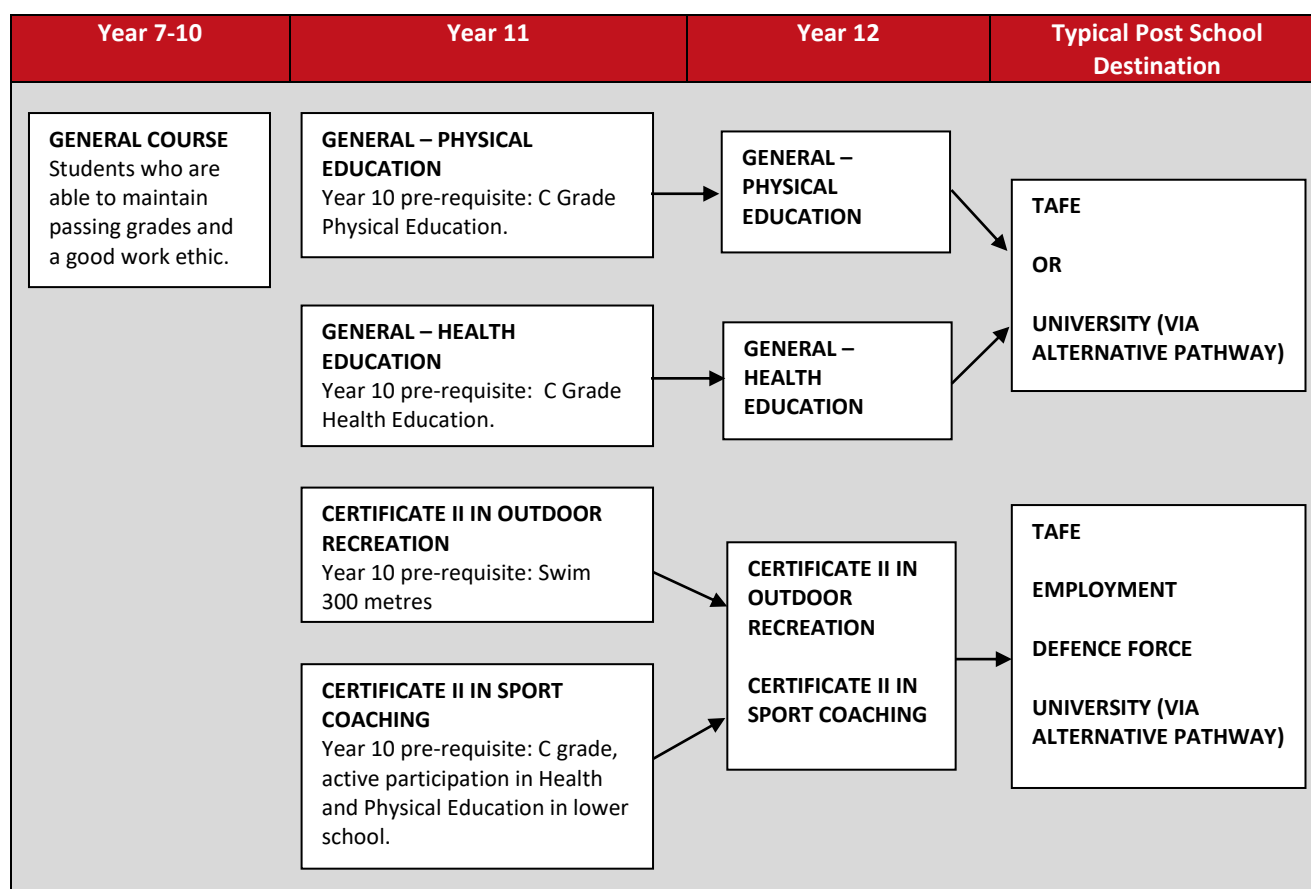

This course will be offered under the auspices of a Registered Training Organisation that is yet to be confirmed.

CAREER POSSIBILITIES	FURTHER STUDY	
Indonesian is a useful subject for a range of careers in which communication with people is important. These include careers in the fields of hospitality and tourism, medicine, science and engineering, diplomacy, education and the arts.	TAFE Certificate III in Applied Language: Indonesian Diploma Applied Language Studies	UNIVERSITIES Students can continue with entrance level language studies at university and it is possible to combine languages with courses from many other disciplines. Contact the universities for more information.

HEALTH & PHYSICAL EDUCATION LEARNING AREA

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

Physical Education Studies General Units 1 & 2

Requirements

- C Grade, and active participation in Year 10 Physical Education.

What Is It All About?

Approximately 50% of this course is practical and 50% is theory. Students will be offered opportunities to enhance and refine their own physical skills in sports within each unit. Practical sessions will include a variety of sports depending on availability of facilities and may include squash, lawn bowls, ten pin bowling, trampolining, golf and volleyball. These sports help link classroom based knowledge with practical application.

The theory focus is on introductory anatomy, physiology and, personal training and coaching methodology. This leads on to leadership, mental skills and refinement of skills to realise personal potential. Basic theory topics include: sports nutrition; introduction to mental skills training; basic biomechanics; communication; coaching styles and training principals; media influences; analysing skills and tactics; and goal setting.

Why Should I Choose This Course?

There are some strong links between Physics, Dance and Human Biology. This course will be beneficial for students who would like to pursue a career in sports and/or human biological sciences.

CAREER POSSIBILITIES		FURTHER STUDY
Dancer Army Soldier Fire Fighter	Weight Loss Counsellor Nurse Fitness Instructor	TAFE Certificate II or higher Some units can be used in other TAFE packages

Navy Sailor Health Worker	Sports Coach Leisure Industry	
------------------------------	----------------------------------	--

Health Education General Units 1 & 2

Requirements

- C Grade or above in Year 10 Health Education.

What Is It All About?

Unit 1 - This unit focuses on personal health and wellbeing and what it means to be healthy. Students explore factors which influence their health, and design action plans to improve health and achieve set goals. Key consumer health skills and concepts, and the relationship between beliefs, attitudes, values and healthy behaviour, and the impact of social and cultural norms, are introduced. Key self-management and interpersonal skills required to build effective relationships are explored. Health inquiry skills are developed and applied to investigate and report on health issues.

Unit 2 - This unit focuses on personal health and introduces the many factors which influence health. The notion of prevention is central to this unit, and students explore actions, skills and strategies to cope with health influences and improve health. In addition to health determinants, the influence of cognitive dissonance on decision making and the role of communities in shaping norms and expectations are explored. Self-management and cooperative skills are examined and students continue to develop and apply health inquiry skills.

Why Should I Choose This Course?

These topics provide a strong health background for all students. The subject will be beneficial to students who would like to pursue a career in Health fields. Successful completion of the Year 11 Health Studies general course provides suitable preparation for the Year 12 Health Studies general course.

CAREER POSSIBILITIES	FURTHER STUDY	
Health Worker Child Care Gym Instructor Aged Care Worker Herbalist Disability Services Counsellor	TAFE Certificates in: Health Assistance Health Support Health Services Work Health and Safety Mental Health	UNIVERSITIES Bachelor of Education Bachelor of Applied Public Health Bachelor of Applied Social Science Nursing Psychology Public Health

SIS20419 - Certificate II in Outdoor Recreation (Multiple Activities)

Requirements

- Students must be active and have a passion for the outdoors. They must also be competent in the water, **being able to swim 300 metres**.
- C grade in Year 10 Physical Education and Health Education.

What Is It All About?

The Certificate II in Outdoor Recreation (Multiple Activities) provides the student with the opportunity to acquire skills to participate in multiple recreational activities. This is a very practical subject. Activities include abseiling, canoeing, cycling, snorkelling, power boating (includes obtaining a Recreational Skippers Ticket), yachting and First Aid. Students will also conduct and plan outdoor activities considering logistics and Occupational Health and Safety. Two camps/expeditions are also part of this course and it is compulsory for students to attend.

Why Should I Choose This Course?

On successful completion of this qualification delivered over two years, students will receive their SIS20419 - Certificate II in Sport and Recreation. This course is offered under the auspices of Australian Institute of Education and Training RTO121314. Student and Parent information can be found on their website www.aiet.edu.au. In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

CAREER POSSIBILITIES	FURTHER STUDY	
Police/Defence Force CALM Ranger	TAFE Sport & Recreation	UNIVERSITIES Bachelor of Human Movement & Recreation

Recreation Officer Instructor in Abseiling & Climbing Emergency Services Tourism/Marine Studies	Health & Safety Outdoor Recreation	Bachelor of Physical Education (Outdoor Education) Sports Science
--	---------------------------------------	--

SIS20319 - Certificate II in Sport Coaching

Requirements

- C grade in Year 10 Physical Education and Health Education.

What Is It All About?

This course is made up of 70% practical and 30% theory. The practical will include participation in a variety of sports developing skills, tactics and game play. Sports will depend on the availability of resources. Practical sessions also include First Aid and developing sporting activities. Theory consists of body systems, sports medicine, coaching skills, sport and society, fitness and interpersonal skills.

The Sport Industry Training package qualification holds the relevant units of competency for various sporting disciplines and allows students to obtain formal recognition from the government and community for their sporting discipline studies. Students will receive a Certificate II to help towards further employment and studies.

Why Should I Choose This Course?

On successful completion of this qualification delivered over two years, students will receive their SIS20319 - Certificate II in Sport Coaching. This course is offered under the auspices of Australian Institute of Education and Training RTO121314. Student and Parent information can be found on their website www.aiet.edu.au. In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

CAREER POSSIBILITIES	FURTHER STUDY	
Leisure industry Fitness instructor Sports administrator Coaching Umpiring Armed Services	TAFE Certificate III Sports Coaching Some units can also be used for other TAFE packages.	UNIVERSITIES Bachelor of Social Science (Leisure Sciences) Bachelor of Social Science (Sports Management) Bachelor of Education (majoring) in Physical Education Bachelor of Education (Sports Science)

MATHEMATICS LEARNING AREA

Do I have to study Maths in Year 11 and 12?

Students must select at least one Mathematics course. A maximum of 2 can count towards ATAR.

1. Tertiary Entrance Aggregate Bonus

10% of the scaled score/s in Mathematics Methods ATAR and Mathematics Specialist ATAR will be added to the Tertiary Entrance Aggregate from which the ATAR will be derived.

2. Unacceptable Combination Rules

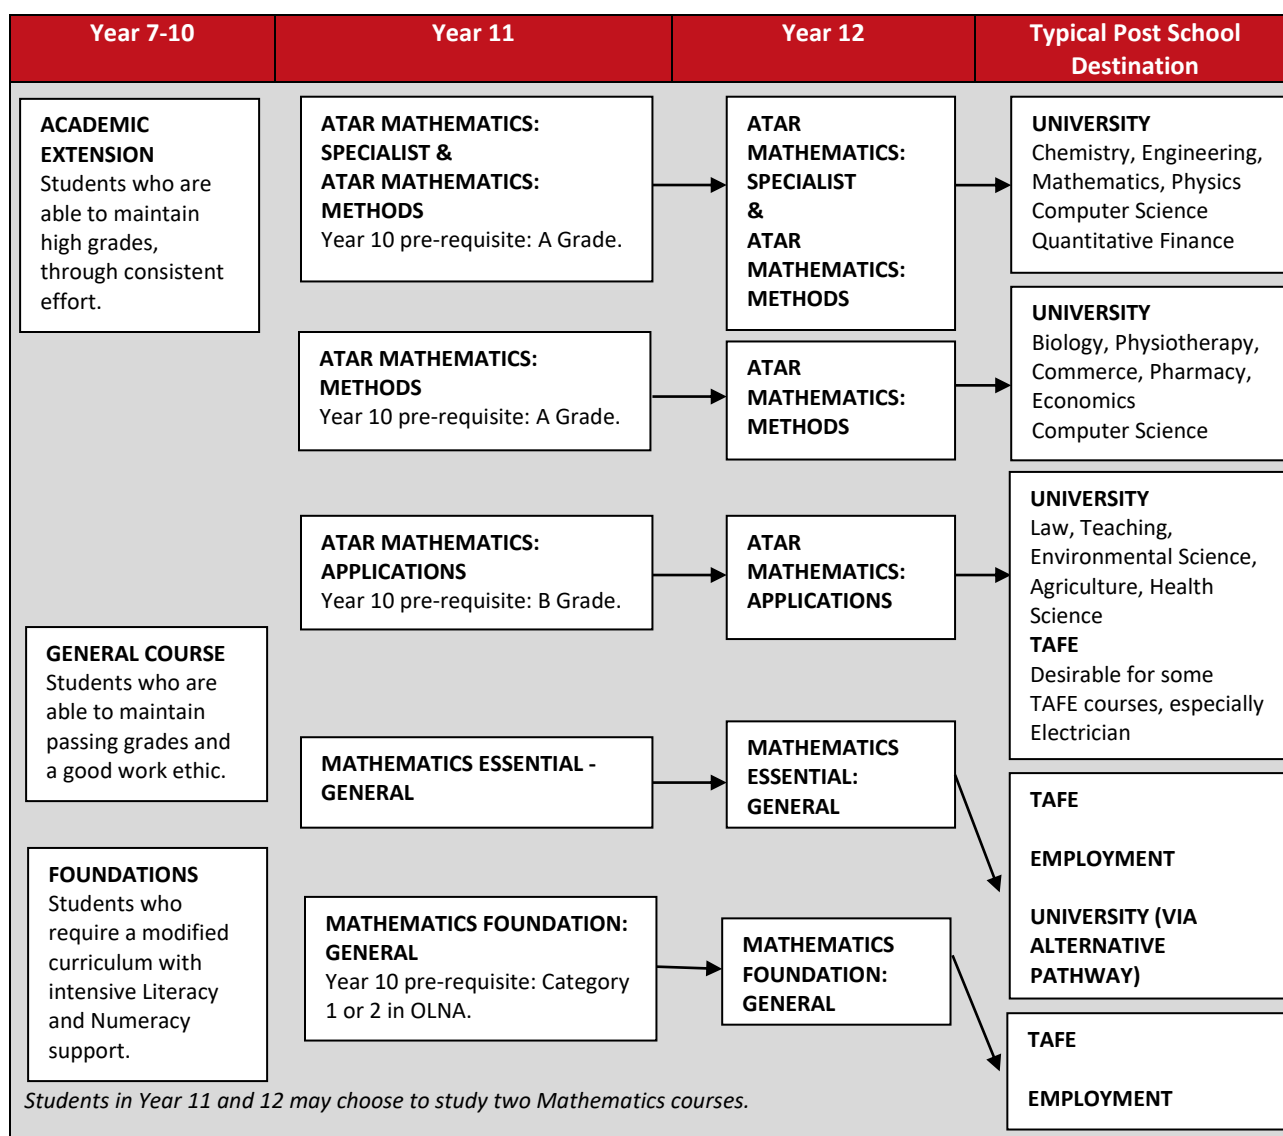

Currently, students may count no more than two mathematics scaled scores in the calculation of the ATAR. Specific unacceptable combination rules will apply:

- Mathematics Applications ATAR and Mathematics Methods ATAR
- Mathematics Applications ATAR and Mathematics Specialist ATAR

Only one scaled score from the unacceptable combination can be used in the calculation of the ATAR. Scores from Mathematics Methods ATAR and Mathematics Specialist ATAR may **BOTH** be used in the ATAR calculation.

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

Mathematics Foundation Units 1 & 2

Requirements

Students who have demonstrated the minimum standard of numeracy in Year 9 NAPLAN or Year 10 (via OLNA) are **not** eligible to enrol in Foundation Mathematics, unless they have not demonstrated the minimum standard of literacy.

Students who demonstrate the minimum standard of numeracy in Semester 1 of Year 11 are not eligible to continue in the Foundation courses in Semester 2 of that year unless they are yet to demonstrate the literacy standard.

Students who demonstrate the minimum standard of numeracy in Semester 2 of Year 11 or during Year 12 will be permitted to enrol in Foundation Mathematics in Year 12.

What Is It All About?

Mathematics Foundation is designed for students who have not demonstrated the Western Australian Certificate of Education (WACE) standard of numeracy skills. These standards are based on Level 3 of the Australian Core Skills Framework (ACSF) which outlines the skills required for individuals to meet the demands of everyday life and work in a knowledge-based economy.

Foundation courses provide support for the development of functional numeracy skills essential for students to meet the WACE standard of numeracy through engagement with the ACSF Level 3 numeracy core skills.

COURSE CONTENT	
Year 11 – Units 1 & 2 <ul style="list-style-type: none">• Whole numbers and money• Addition and subtraction with whole numbers and money• Length, mass and capacity• Time• Data, graphs and tables• Understanding fractions and decimals• Multiplication and division with whole numbers and money• Metric relationships• Perimeter, area and volume• The probability of everyday events	Year 12 – Units 3 & 4 <ul style="list-style-type: none">• The four operations: whole numbers and money• Percentages linked with fractions and decimals• The four operations: fractions and decimals• Location, time and temperature• Space and design• Rates and ratios• Statistics and probability• Application of the Mathematical Thinking Process

Why Should I Choose This Course?

The Mathematics Foundation course recognises some students have significant gaps in basic mathematical understanding and application by the time they enter senior school. However, these same students have the potential to learn, especially when involved in a learning program which connects with their current experience and knowledge. The course focuses on functional numeracy embedded in familiar and meaningful contexts which are relevant to young adults.

CAREER POSSIBILITIES	FURTHER STUDY	
This course provides the opportunity for students to prepare for post-school options of employment and further training.	TAFE Many TAFE courses require basic numeracy skills	UNIVERSITIES Not applicable

Mathematics Essential General Units 1 & 2

Requirements

- Year 10 Mathematics.
- May be combined with another Maths course.

What Is It All About?

Mathematics Essential is a General course which focuses on using mathematics effectively, efficiently and critically to make informed decisions. It provides students with the mathematical knowledge, skills and understanding to solve

problems in real contexts for a range of workplace, personal, further learning and community settings. This course provides the opportunity for students to prepare for post-school options of employment and further training.

COURSE CONTENT	
Year 11 – Units 1 & 2 <ul style="list-style-type: none"> • Basic calculations, percentages and rates • Using formulas for practical purposes • Measurement • Graphs • Representing and comparing data • Percentages • Rates and ratios • Time and motion 	Year 12 – Units 3 & 4 <ul style="list-style-type: none"> • Measurement • Scales, plans and models • Graphs in practical situations • Data collection • Probability and relative frequencies • Earth geometry and time zones • Loans and compound interest

Why Should I Choose This Course?

Most employers prefer job applicants to have a strong mathematics background. This course is likely to be most useful for people looking to improve their maths skills to a level suitable for the work force.

CAREER POSSIBILITIES	FURTHER STUDY	
Most trades and business positions.	TAFE Refer to TAFE handbook. Most courses require a minimum standard of Mathematics. This course satisfies the majority.	UNIVERSITIES Not applicable

Mathematics Applications ATAR Units 1 & 2

Requirements

- Year 10 Mathematics – B grade.
- May not be combined with Mathematics Methods or Specialist.

What Is It All About?

Mathematics Applications is an ATAR course which focuses on the use of mathematics to solve problems in contexts that involve financial modelling, geometric and trigonometric analysis, graphical and network analysis, and growth and decay in sequences. It also provides opportunities for students to develop systematic strategies based on the statistical investigation process for answering statistical questions that involve analysing univariate and bivariate data, including time series data.

COURSE CONTENT	
Year 11 – Units 1 & 2 <ul style="list-style-type: none"> • Consumer arithmetic • Algebra and matrices • Shape and measurement. • Univariate data analysis and the statistical investigation process • Applications of trigonometry • Linear equations and their graphs. 	Year 12 – Units 3 & 4 <ul style="list-style-type: none"> • Bivariate data analysis • Growth and decay in sequences • Graphs and networks • Time series analysis • Loans, investments and annuities • Networks and decision mathematics.

Why Should I Choose This Course?

This course is designed for students who want to extend their mathematical skills beyond Year 10 level but whose future studies or employment pathways do not require knowledge of calculus. It is designed for students who have a wide range of educational and employment aspirations, including continuing their studies at university or TAFE.

CAREER POSSIBILITIES	FURTHER STUDY	
Arts Commerce Law Teaching (Primary or Arts) Environmental Science Electrician Agriculture	TAFE Refer to TAFE handbook.	UNIVERSITIES When followed by Year 12 Mathematics Applications, this is acceptable for many university courses.

Mathematics Methods ATAR Units 1 & 2

Requirements

- Year 10 Mathematics – A grade.
- May not be combined with Mathematics Applications.

What Is It All About?

Mathematics Methods is an ATAR course which focuses on the use of calculus and statistical analysis. The study of calculus provides a basis for understanding rates of change in the physical world, and includes the use of functions, their derivatives and integrals, in modelling physical processes. The study of statistics develops students' ability to describe and analyse phenomena that involve uncertainty and variation.

COURSE CONTENT	
Year 11 – Units 1 & 2 <ul style="list-style-type: none"> • Functions and graphs • Trigonometric functions • Counting and probability • Exponential functions • Arithmetic and geometric sequences and series • Introduction to differential calculus 	Year 12 – Units 3 & 4 <ul style="list-style-type: none"> • Further differentiation and applications • Integrals • Discrete random variables • The logarithmic function • Continuous random variables and the normal distribution • Interval estimates for proportions

Why Should I Choose This Course?

This course is designed for students whose future pathways may involve mathematics and statistics and their applications in a range of disciplines at the tertiary level.

Tertiary Entrance Aggregate Bonus

10% of the scaled score/s in Mathematics Methods ATAR and Mathematics Specialist ATAR will be added to the Tertiary Entrance Aggregate from which the ATAR will be derived.

CAREER POSSIBILITIES	FURTHER STUDY	
Biology Physiotherapy Commerce Pharmacy Economics Health Science Computer Technology Human Movement Actuarial Science	TAFE	UNIVERSITIES Desirable for most university courses.

Mathematics Specialist ATAR Units 1 & 2

Requirements

- Year 10 Mathematics – A grade.
- Must be studied with Mathematics Methods, but not Mathematics Applications.

What Is It All About?

Mathematics Specialist is an ATAR course which provides opportunities, beyond those presented in the Mathematics Methods ATAR course, to develop rigorous mathematical arguments and proofs, and to use mathematical models more extensively. The Mathematics Specialist ATAR course contains topics in functions and calculus that build on and deepen the ideas presented in the Mathematics Methods ATAR course as well as demonstrate their application in many areas. The Mathematics Specialist ATAR course also extends understanding and knowledge of statistics and introduces the topics of vectors, complex numbers and matrices. The Mathematics Specialist ATAR course is the only ATAR mathematics course that ***should not be taken as a stand-alone course***.

COURSE CONTENT	
Year 11 – Units 1 & 2 <ul style="list-style-type: none"> • Combinatorics • Vectors in the plane • Geometry • Trigonometry • Matrices • Real and complex numbers 	Year 12 – Units 3 & 4 <ul style="list-style-type: none"> • Complex numbers • Functions and sketching graphs • Vectors in three dimensions • Integration and applications of integration • Rates of change and differential equations • Statistical inference

Why Should I Choose This Course?

This course is designed for students with a strong interest in mathematics, including those intending to study mathematics, statistics, all sciences and associated fields, economics or engineering at university.

Tertiary Entrance Aggregate Bonus

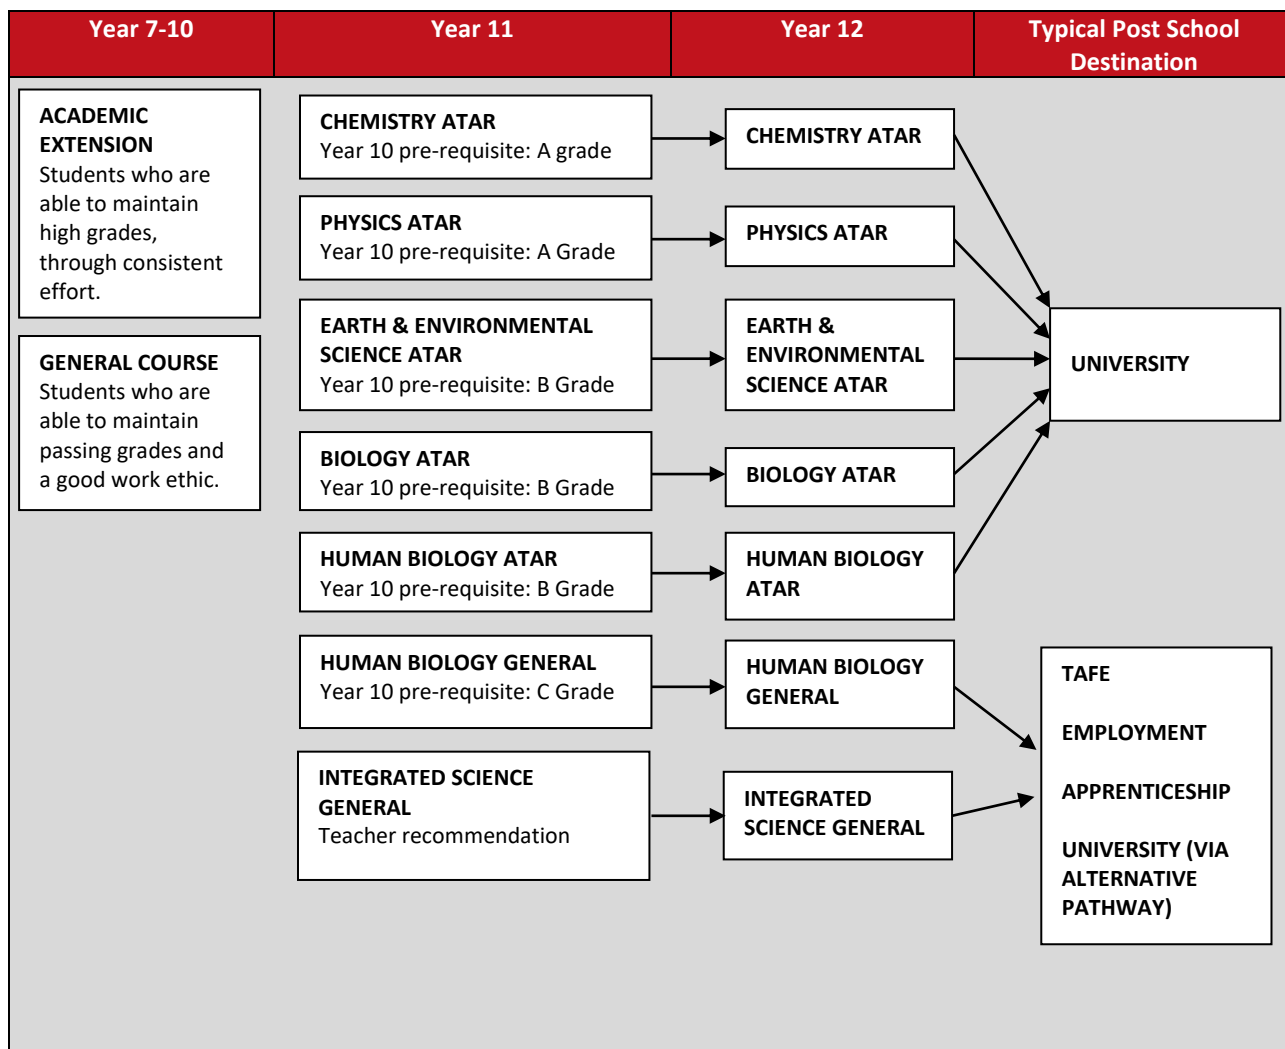

10% of the scaled score/s in Mathematics Methods ATAR and Mathematics Specialist ATAR will be added to the Tertiary Entrance Aggregate from which the ATAR will be derived.

CAREER POSSIBILITIES	FURTHER STUDY	
Chemistry Engineering Mathematics Physics Computer Science Actuarial Science	TAFE	UNIVERSITIES Desirable for most university courses. Highly recommended or compulsory for some engineering courses.

SCIENCE LEARNING AREA

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

Chemistry ATAR Units 1 & 2

Requirements

- Minimum of an A grade in Year 10 Science (Extension Class) and a recommendation from your Science teacher.
- The study of Chemistry requires mathematical competence. It is desirable that students have also achieved an A grade in Year 10 Mathematics (A+ or Extension class).

What Is It All About?

- Bonding theory and atomic structure
- Electron configuration
- Balancing equations
- Exothermic and endothermic reactions
- Activation energy and heat of reaction
- Ionic, Covalent Molecular and Covalent network substances
- Organic chemistry
- Acid/Base theory
- Oxidation/Reduction Processes

- Equilibrium
- pH, Concentration and Conductivity of Solutions
- Stoichiometric Calculations
- Collision theory
- Conservation of mass

Why Should I Choose This Course?

Students who have an interest in chemistry and/or would like to pursue a career or further study in science or chemistry should select this course. Successful completion of the Year 11 Chemistry course provides suitable preparation for the Year 12 Chemistry course.

CAREER POSSIBILITIES	FURTHER STUDY	
Medicine Geologist Chemist Biochemist Laboratory technician Pharmacist Metallurgist Chemical engineer Hydrographer	TAFE Applied Sciences Laboratory Practices - Natural Sciences - Pharmacy Laboratory Techniques - Biological Sciences - Chemistry Engineering	UNIVERSITIES Bachelor of Science - Geology - Mineral Science - Chemistry - Biological Sciences Bachelor of Engineering Bachelor of Pharmacy

Physics ATAR Units 1 & 2

Requirements

- Minimum A grade in Year 10 Science (Extension Class), and a recommendation from your Science teacher.
- The study of Physics requires mathematical competence. It is desirable that students have also achieved an A grade in Year 10 Mathematics (A+ or Extension class).

What Is It All About?

- Kinetic theory and thermodynamics
- Ionising radiation and nuclear reactions
- Radioactivity
- Nuclear reactions – fission and fusion
- Einstein's mass/energy relationship
- Electrical circuits
- Energy, power and resistance
- Electrical safety
- Linear motion and force
- Newtons Laws of Motion
- Vehicle safety and collisions
- Energy transfer by waves
- Characteristics of light and sound
- Applications including ultrasound and seismology

Why Should I Choose This Course?

Students who have an interest in the physical world and/or would like to pursue a career or further study in the physical sciences area should select this course. Successful completion of the Year 11 Physics course provides suitable preparation for the Year 12 Physics course.

CAREER POSSIBILITIES	FURTHER STUDY	
Medicine Engineering - electronic - chemical - agricultural - flight Pharmacist Physicist Teacher	TAFE Electrical trades Engineering Aircraft maintenance Automotive mechanic	UNIVERSITIES Bachelor of Engineering - Electrical - Mining Engineering Bachelor of Pharmacy Bachelor of Science Bachelor of Education Physical Sciences

Biology ATAR Units 1 & 2

Requirements

- B grade or above in Year 10 Science (Life and Living) plus recommendation from your Science teacher.

What Is It All About?

- Classification
- Communities
- Cycling of matter
- Productivity in communities
- Population dynamics
- Requirements of living things
- Cell structure and function
- Exchange of materials
- Adaptations
- Cell division
- Reproduction
- Life cycles
- Principles of genetics
- Working as a biologist

Why Should I Choose This Course?

This course provides a strong scientific background for all students. However, it is especially beneficial for students who have an interest in biology and the environment, and/or would like to pursue a career in the Biological Sciences. This course leads toward a WACE exam and ATAR.

CAREER POSSIBILITIES	FURTHER STUDY	
Veterinarian Marine Biologist Environmental scientist Zoologist Environmental Engineer Conservation Officer Veterinary Nurse	TAFE Marine Studies Outdoor Recreation (Marine Tourism) Applied Environmental Arts Environmental Science (Management) Indigenous Environmental Health Laboratory Operations Laboratory Techniques	UNIVERSITIES Bachelor of Science Botany Animal Biology Evolutionary Biology Conservation and Wildlife Biology Environmental Restoration Nature Based Tourism Veterinary Science

Human Biology ATAR Units 1 & 2

Requirements

- Minimum of a B grade in Year 10 Science, and a recommendation from your Science teacher.

What Is It All About?

- Cellular processes (metabolism and transport)
- DNA and differentiation
- Reproduction to infancy
- Reproductive technologies and environmental factors
- Skeletal, excretory systems
- Respiration, circulation, digestion, musculoskeletal, excretory systems
- Inheritance (autosomal, sex-linked, mutations, pedigrees, genetic testing, Human Genome Project)
- Mitosis and meiosis
- Scientific investigation of human biological issues

Why Should I Choose This Course?

This course provides a strong scientific background for all students. It is especially beneficial for students who have an interest in the human body and/or would like to pursue a career in the Human Biological Science area.

Successful completion of the Year 11 Human Biology course provides suitable preparation for the Year 12 Human Biology ATAR course.

CAREER POSSIBILITIES	FURTHER STUDY	
Radiographer Occupational therapist Sports scientist Chemist Doctor Health worker Enrolled nurse Medical lab technician Teacher	TAFE Laboratory Practices Pharmacy Natural Sciences Applied Science	UNIVERSITIES Bachelor of Science Bachelor of Applied Science Sports Medicine Bachelor of Education Medical Science

Earth and Environmental Science ATAR Units 1 & 2

Requirements

- B grade or above in Year 10 Science and a recommendation from your Science teacher.

Why Should I Choose This Course?

The ATAR Earth and Environmental Science (EES) course enhances student understanding and geoscience literacy so they are better aware of Earth's processes, the resources it provides and sustainable practices to ensure that the industry and environment work together in harmony.

EES embraces the fundamental aspects of physics, chemistry and biology, elaborating these processes within the Earth and environment context which allows students to appreciate how relevant and authentic their science learning is.

What Is It All About?

- Earth's structure and evidence for this
- Geological timescales
- Rock cycle, minerals and soils
- Formation and structure of the atmosphere
- Hydrosphere and water cycle
- Biosphere and origin of life on Earth
- Fossil record and evidence for extinctions and evolution.
- Plate tectonics and volcanoes
- Formation and identification of igneous rocks
- Atmospheric processes, greenhouse effect
- Ocean processes and patterns
- Energy flow – evaporation and photosynthesis.
- Biogeochemical cycling of matter-nitrogen cycle, carbon cycle
- Effects of human activities

CAREER POSSIBILITIES	FURTHER STUDY	
Geologist Environmental Scientist Metallurgist Engineer Surveyor Teacher	TAFE Conservation and Land Management Certificate in Resource Processing Diploma of Surveying Engineering - technical	UNIVERSITIES Bachelor of Engineering - Agriculture Bachelor of Science - Geology - Hydrology - Geochemistry - Environmental Science

Human Biology General Units 1 & 2

Requirements

- C grade or above in Year 10 Science.

What Is It All About?

The course explores how the human body works. It focuses on the cells, tissues and organs that work together to make up our major body systems. It also covers the human body's requirements for healthy living as well as reproduction and pregnancy, and the various technologies available to treat associated disorders.

In **Unit 1: Healthy Body** students will study:

- Cells, tissues, organs, systems
- Respiratory system
- Circulatory system
- Digestive system and nutrition
- Urinary system
- Associated disorders and dysfunctions

In **Unit 2: Reproduction** students will study:

- DNA, genes and chromosomes
- Cell division
- Reproductive systems
- Pregnancy, birth and infancy
- Reproductive technologies
- Sexually transmitted infections

Why Should I Choose This Course?

This stream has a strong focus on the human body and health for students with a particular interest in health sciences, sport, fitness, childcare or related fields.

CAREER POSSIBILITIES	FURTHER STUDY	
Fitness Instructor / Personal Trainer Police Officer Education Assistant Childcare worker Laboratory Technician Defence Forces Nurse	TAFE Certificates and Diplomas in: Fitness Sport development Sport and Recreation Early Childhood Ed and Care Individual Support Community Services Laboratory Operations Laboratory Techniques - Biological	UNIVERSITIES Bachelor of Science

Integrated Science General Units 1 & 2

Requirements

- D grade or above in Year 10 Science, or Teacher recommendation.

What Is It All About?

The focus for learning is the practice of science, general knowledge of factual content in biological, physical and environmental/earth science and an understanding of the impact of science on the world in which students live.

In the topic of **Vehicles and Drivers** students will study:

- Speed and acceleration
- Collisions
- Vehicle safety design
- Driver safety and road rules
- Friction, inertia and momentum
- Reaction time and stopping distance

In the topic of **Biodiversity** students will study:

- Classification of animals and plants
- Habitats
- Feeding relationships
- Adaptations
- Human impact on ecosystems
- Endangered species
- Quarantine
- Introduced species and feral animals

Why Should I Choose This Course?

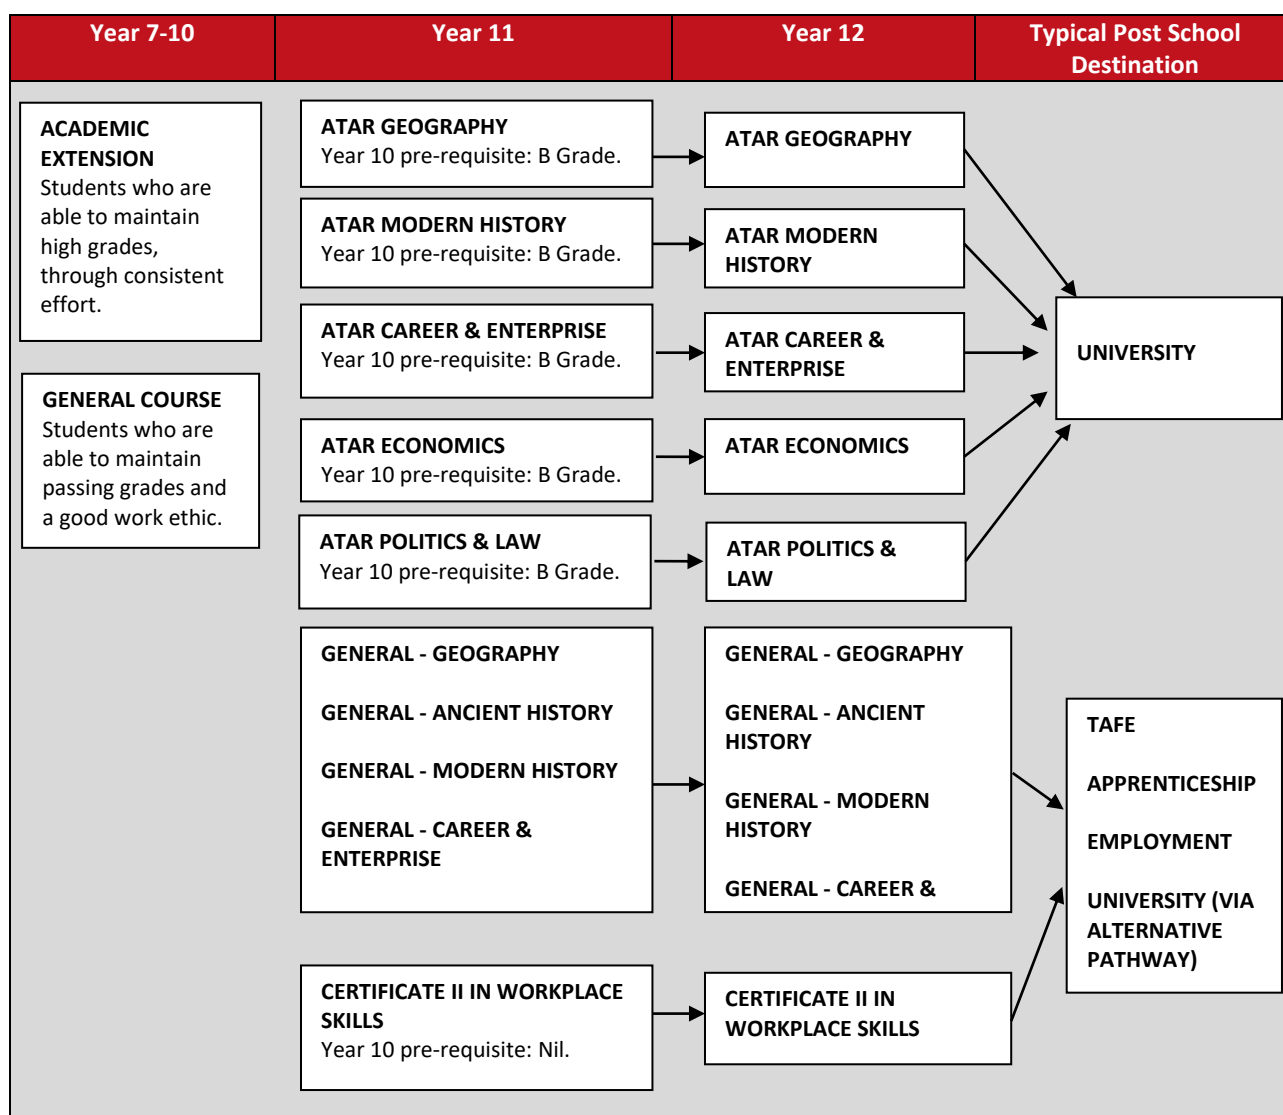

This course has a strong focus on the practical aspects of Science with applications to our everyday lives. It will appeal to students who enjoy Science experiments more than the theory, or those with a particular interest in health and environmental sciences or the basic physics of motor vehicles and safety features.

CAREER POSSIBILITIES	FURTHER STUDY	
Police Officer Forensic Data Analyst Childcare worker Laboratory Technician Defence Forces Veterinary Nurse Nurse Horticulturalist Environmental Health Officer	TAFE Marine Studies Applied Environmental Arts Environmental Science (Management) Laboratory Operations Laboratory Techniques - Biological	UNIVERSITIES Bachelor of Science

HUMANITIES & SOCIAL SCIENCES LEARNING AREA

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

Geography ATAR Units 1 & 2

Requirements

- Successful completion of Year 10 Humanities units with a minimum B grade.

What Is It All About?

These units focus on hazards and impact minimization as well as sustainable development. These themes are explored through the context of earthquakes, volcanoes, tsunamis, and the global distribution of resources and wealth.

Unit 1 is about Natural and ecological hazards. In this unit, students explore the management of hazards and the risk they pose to people and environments. Risk management is defined in terms of preparedness, mitigation and/or prevention.

Unit 2 is about Global networks and interconnections. In this unit, students explore the economic and cultural transformations taking place in the world – the spatial outcomes of these processes and their social and geopolitical consequences – that will enable them to better understand the dynamic nature of the world in which they live.

Why Should I Choose This Course?

GEOGRAPHY MATTERS!! It is really important that all students study Geography at school. Geography not only gives better spatial awareness so we know where things are but deals with the big issues - the only subject that gives the full picture on sustainable living, poverty, renewable energy, migration, urban regeneration, floods, droughts, cyclones and hazard management.

Geography offers exciting opportunities for fieldwork excursions to gain practical, hands-on knowledge of our surrounding environment. Excursions include John Forrest National Park to study bushfires, and Curtin University to experience GIS (geographical information systems) activities.

Employers value the wide-ranging computer, research, and analytical skills that geography students bring to work as employees. Geography provides training in geospatial technologies (geographic information systems, computer mapping, remote sensing, etc.) This high-growth industry, that generates tens of billions of dollars in annual revenues for companies around the world, will ensure that geography students are always employable.

A great compliment to the STEM subjects, Geography combines a scientific approach to the way people interact with their environment.

CAREER POSSIBILITIES	FURTHER STUDY	
Surveying Engineering Advertising Teacher Conservationist Architect Lawyer Defence Forces Town Planner	TAFE Electrical – Renewable Energy Tourism Community Development Building and Engineering Landscape Design Marine Studies	UNIVERSITIES Mining Engineering Architecture / Urban Planning Tourism Education Environmental Science Journalism

Modern History ATAR Units 1 & 2

Requirements

- Successful completion of Year 10 Humanities units with a minimum B grade.

What Is It All About?

This unit fosters students' active learning skills of research, hypothesis testing and analysis of information and problems of historical evidence as they complete inquiries and investigations. Students learn essential historical concepts of people, events ideas, beliefs, motives, forces, perspective, discrimination, cause and effect and empathy.

Topics: **Unit 1** - Capitalism – the American experience (1907–1941)
 Unit 2 - Nazism in Germany

Texts: A variety of source material inclusive of original document study, newspaper articles, cartoons, various texts and internet research.

Why Should I Choose This Course?

This course makes a literary contribution towards further study. Studying History will provide you with an opportunity to gain valuable research and analysis skills in order to be better prepared for University. Understanding History enables students to gain a broader understanding of the world around them which will assist them in many different career pathways. History knowledge also makes you a more interesting person that others wish to talk to. This course makes a contribution towards the successful completion of the Western Australian Certificate of Education (WACE).

CAREER POSSIBILITIES	FURTHER STUDY	
Wide range of organisations. Museum/Library Local Government Archives Journalism Teaching	TAFE Arts Media	UNIVERSITIES Arts Humanities Social Science Law Journalism

Legal Historian		Education Politics
--------------------	--	-----------------------

Career and Enterprise ATAR Units 1 & 2

Requirements:

- Successful completion of Year 10 Humanities units with a minimum B grade.

What is it all about?

Career education involves learning to manage and take responsibility for personal career development. The Career and Enterprise ATAR course involves recognising one's individual skills and talents, and using this understanding to assist in gaining and keeping work.

The Career and Enterprise ATAR course engages students in learning about developing their career in a constantly changing digital and globalised world. Careers are now considered to be about work, learning and life. Individuals need to be proactive, enterprising career managers who engage in lifelong learning.

The Career and Enterprise ATAR course aims to provide all students with the knowledge, skills and understanding to enable them to be enterprising and to proactively manage their own careers.

Unit 1 is about adopting a proactive approach to securing and maintaining work and it involves self-management, using work search tools and techniques, developing career competencies and accessing learning opportunities.

Unit 2 is to explore issues associated with career management, workplaces and influences and trends in times of change. Change can be analysed and the information used to inform strategies associated with self-management, career building and personal and professional learning experiences.

Why should I choose this course?

The course reflects the importance of career development knowledge, understanding and skills in securing, creating and sustaining work. Work, including unpaid voluntary work, is fundamentally important in defining the way we live, relate to others and in determining the opportunities we have throughout life. The course recognises that work both reflects and shapes the culture and values of our society. It provides opportunities for students to develop critical insights into the relationships between work, culture and the values of our own and other societies.

The Career and Enterprise ATAR course has been constructed using, and is strongly aligned to, the knowledge, skills and understandings drawn from the *Core Skills for Work Development Framework* (2013) and the *Australian Blueprint for Career Development* (the *Blueprint*).

Economics ATAR Units 1 & 2

Requirements

- Successful completion of Year 10 Humanities units with a minimum B grade.
- An interest in issues relating to both the Australian and international economy, with students expected to read daily quality broadsheet newspapers.

What Is It All About?

Economics investigates the choices people, groups and societies face as they confront the ongoing problem of satisfying their unlimited wants with limited resources. Economics aims to analyse and understand the allocation, utilisation and distribution of scarce resources that determine our wealth and well-being. Economics develops the knowledge, reasoning and interpretation skills which will assist students to form an understanding of personal, business and government behaviour at all levels of the economy.

Unit 1 is microeconomics. A wide variety of markets are studied ranging from the stock market, oil prices and real estate prices, the role of firms in the market and market failure. The aim is to use real world examples to demonstrate economic theory. Students develop an understanding of their roles as consumers, potential business owners and owners of resources.

Unit 2 is on macro-economics with particular attention on the Australian economy. Students explore issues such as economic growth, inflation and unemployment.

Why Should I Choose This Course?

This course enables students to develop a variety of skills relating to economic behaviour and reasoning, including the ability to analyse, communicate and evaluate economic information. These skills are highly valued by colleges, universities and employers.

CAREER POSSIBILITIES	FURTHER STUDY	
Real Estate Agent Economist Finance Broker Accountant Business	TAFE	UNIVERSITIES Bachelor of Commerce - Economics

Politics and Law ATAR Units 1 & 2

Requirements

- Successful completion of Year 10 Humanities units with a minimum B grade.

What Is It All About?

The Politics and Law ATAR course units focus on the processes of decision making concerning society's collective future. It aims to develop the knowledge of the principles, structures, institutions and processes of political and legal systems primarily in Australia. It examines the democratic principles practised in Australia and makes comparisons with other political and legal systems.

Why Should I Choose This Course?

The skills and values developed in the Politics and Law ATAR course aim to allow students to become informed, active and effective participants in the political and legal decisions that affect their lives within society.

Studying Politics and Law prepares students for many forms of employment as well as further study. You will gain many analytical and practical skills including the ability to conduct research, oral and written communication and IT, all of which are invaluable in today's employment market and which will help you achieve at further education.

CAREER POSSIBILITIES	FURTHER STUDY	
Political Advocacy Teacher Lawyer Defence Forces Town Planner Public Administration International Relations Foreign Affairs Media/ Journalism Human Resource Management Government Commerce	TAFE Arts Media Commerce Public Administration	UNIVERSITIES Politics Law Architecture / Urban Planning Education Journalism Human resources Government Administration Commerce International Affairs History

Geography General Units 1 & 2

Requirements

- No prerequisites other than the ability to write in an extended answer format.

What Is It All About?

The focus for these units is the geography of environments at risk, and the geography of people and places. For instance, students may identify the risks posed to the Ningaloo Reef or study the natural and cultural characteristics of a destination such as Bali.

Why Should I Choose This Course?

This course does not have an exam component and includes exciting opportunities for fieldwork excursions to gain practical, hands-on experience. Excursions could include a camp at The Hills Centre. The course is practical and lends itself well to future employment. Universities/TAFE recommend geography for any student who wants to pursue a career in building and architecture. This course also provides insight into the tourism industry, for those students interested in that area.

CAREER POSSIBILITIES	FURTHER STUDY	
Surveying Engineering Teacher Conservationist Architect Lawyer Defence Forces Tour Guide	TAFE Electrical – Renewable Energy Tourism Community Development Building and Engineering Landscape Design Marine Studies Tourism	UNIVERSITIES Mining Engineering Architecture/ Urban Planning Tourism Education Environmental Science Journalism

Ancient History General Units 1 & 2

Requirements

- There are no prerequisites required for this course however, an interest in researching History is a must.

What Is It All About?

The Ancient History course will look at a number of ancient civilisations and the powerful people behind these civilisations by looking at the impact they had on society then and now. Looking at the people, places and monuments that have become significant over time will allow students to develop skills that will enable them to look at history and the event makers in new ways.

Topics include:

- Alexander the Great
- Late Bronze Age Greece and Troy
- Pompeii and Herculaneum

Why Should I Choose This Course?

History is a course that all students should study. It impacts our daily life and it allows us to understand human evolution of ideas and concepts. There is no exam with this course and it encourages students to develop an interest in a civilisation or a significant person that they find interesting. The course is ideal for a student who is looking towards future employment or study due to the research and writing skills that will be acquired during the course.

CAREER POSSIBILITIES	FURTHER STUDY	
Wide range of organisations. Museum Library Local Government Archives Journalism Teaching	TAFE Arts Journalism/Media	UNIVERSITIES Arts Humanities Social Science Law Journalism Education Politics

Modern History General Units 1 & 2

Requirements

- There are no prerequisites required for this course.

What is it all about?

Studying the Modern History General course exposes students to a variety of historical sources, including government papers, extracts from newspapers, letters, diaries, photographs, cartoons, paintings, graphs and secondary sources, in order to understand the historical narrative including cause and effect, and the forces influencing people and events.

Through the process of historical inquiry, students are encouraged to question historical sources; identify various representations and versions of history; use evidence to formulate and support their own interpretations; and communicate their findings in a variety of ways.

Unit 1 is “People, place and time”. This unit allows students to become aware of the broad sweep of history and our place within the historical narrative. Students become aware of the values, beliefs and traditions within a society, the continuity between different societies and different time periods, and the importance of individuals within a time period.

Unit 2 is “Power and authority”. Students learn that societies consist of individuals and institutions that have various types of power and authority and that these interact with each other. Students learn how power and authority is distributed throughout a group or society, that individuals and groups seek to influence the structures of power and authority and the difficulties of using these structures in a just or equitable manner. In learning about the structures and institutions of societies, they make comparisons and judgements about other societies and their own society.

Why should I choose this course?

The Modern History General course allows students to gain insights into their own society and its values. It helps them to understand why nations and people hold certain values, and why values and belief systems vary from one group to another. This knowledge is crucial to the development of active and informed citizens in any society. The study of history ensures that they gain essential knowledge of the past – its legacy and heritage.

CAREER POSSIBILITIES	FURTHER STUDY	
Wide range of organisations. Museum Library Local Government Archives Journalism Teaching	TAFE Arts Journalism/Media	UNIVERSITIES Arts Humanities Social Science Law Journalism Education Politics

Career and Enterprise General Units 1 & 2

Requirements

- There are no prerequisites required for this course.

What Is It All About?

Unit One enables students to increase their knowledge of work and career choices and identify a network of people and organisations that can help with school to work transition.

Unit Two builds on the attributes and skills necessary for employment and provides students with the opportunity to identify their personal strengths and the impact of these on career development and decisions.

Why Should I Choose This Course?

Career and Enterprise aims to provide students with the knowledge, workplace skills and attitudes valued within work environments as a preparation for employment. This course enables students to make industry contacts, create resumes, create electronic portfolios, learn valuable workplace skills and clarify career choices and options.

CAREER POSSIBILITIES	FURTHER STUDY	
Business Commerce Local Government Public Administration Human Resource Management Government Teacher	TAFE Commerce Media Public Administration Human Resources	UNIVERSITIES Bachelor of Commerce – Economics Teaching Political studies Business

Note: This is a two-year course.

Requirements

- None

What Is It All About?

Certificate II in Workplace Skills is a dynamic course that provides students with real and transferable skills that will enable students to navigate the complex life and work environments that they will face in this ever increasingly competitive information age. Students will be introduced to the concepts of being 21st Century learners. They will develop a wide range of employable skills including the need to be flexible, self-directed, motivated and accountable individuals that value the need for lifelong learning.

Some typical activities students will encounter include:

- Producing tickets and certificates for school events, such as: river cruise, dinner dance, and/or the school ball.
- Producing and compiling digital information that can be used for the school website, the year 12 Year Book and/or the valedictory ceremony.
- Developing critical thinking skills for effective decision making in the design and production phase of important business documents, so that they meet current industry standards.

Over two years you must complete 10 units, which may include:

- Participation in OHS processes
- Communication skills
- Time management skills
- Sustainable work practices
- Wellbeing in the workplace
- Digital technologies
- Working effectively with others

Why Should I Choose This Course?

This course provides students with the skills to be adequately equipped for placement in the workforce and gain skills to organise personal correspondence and handle everyday finances.

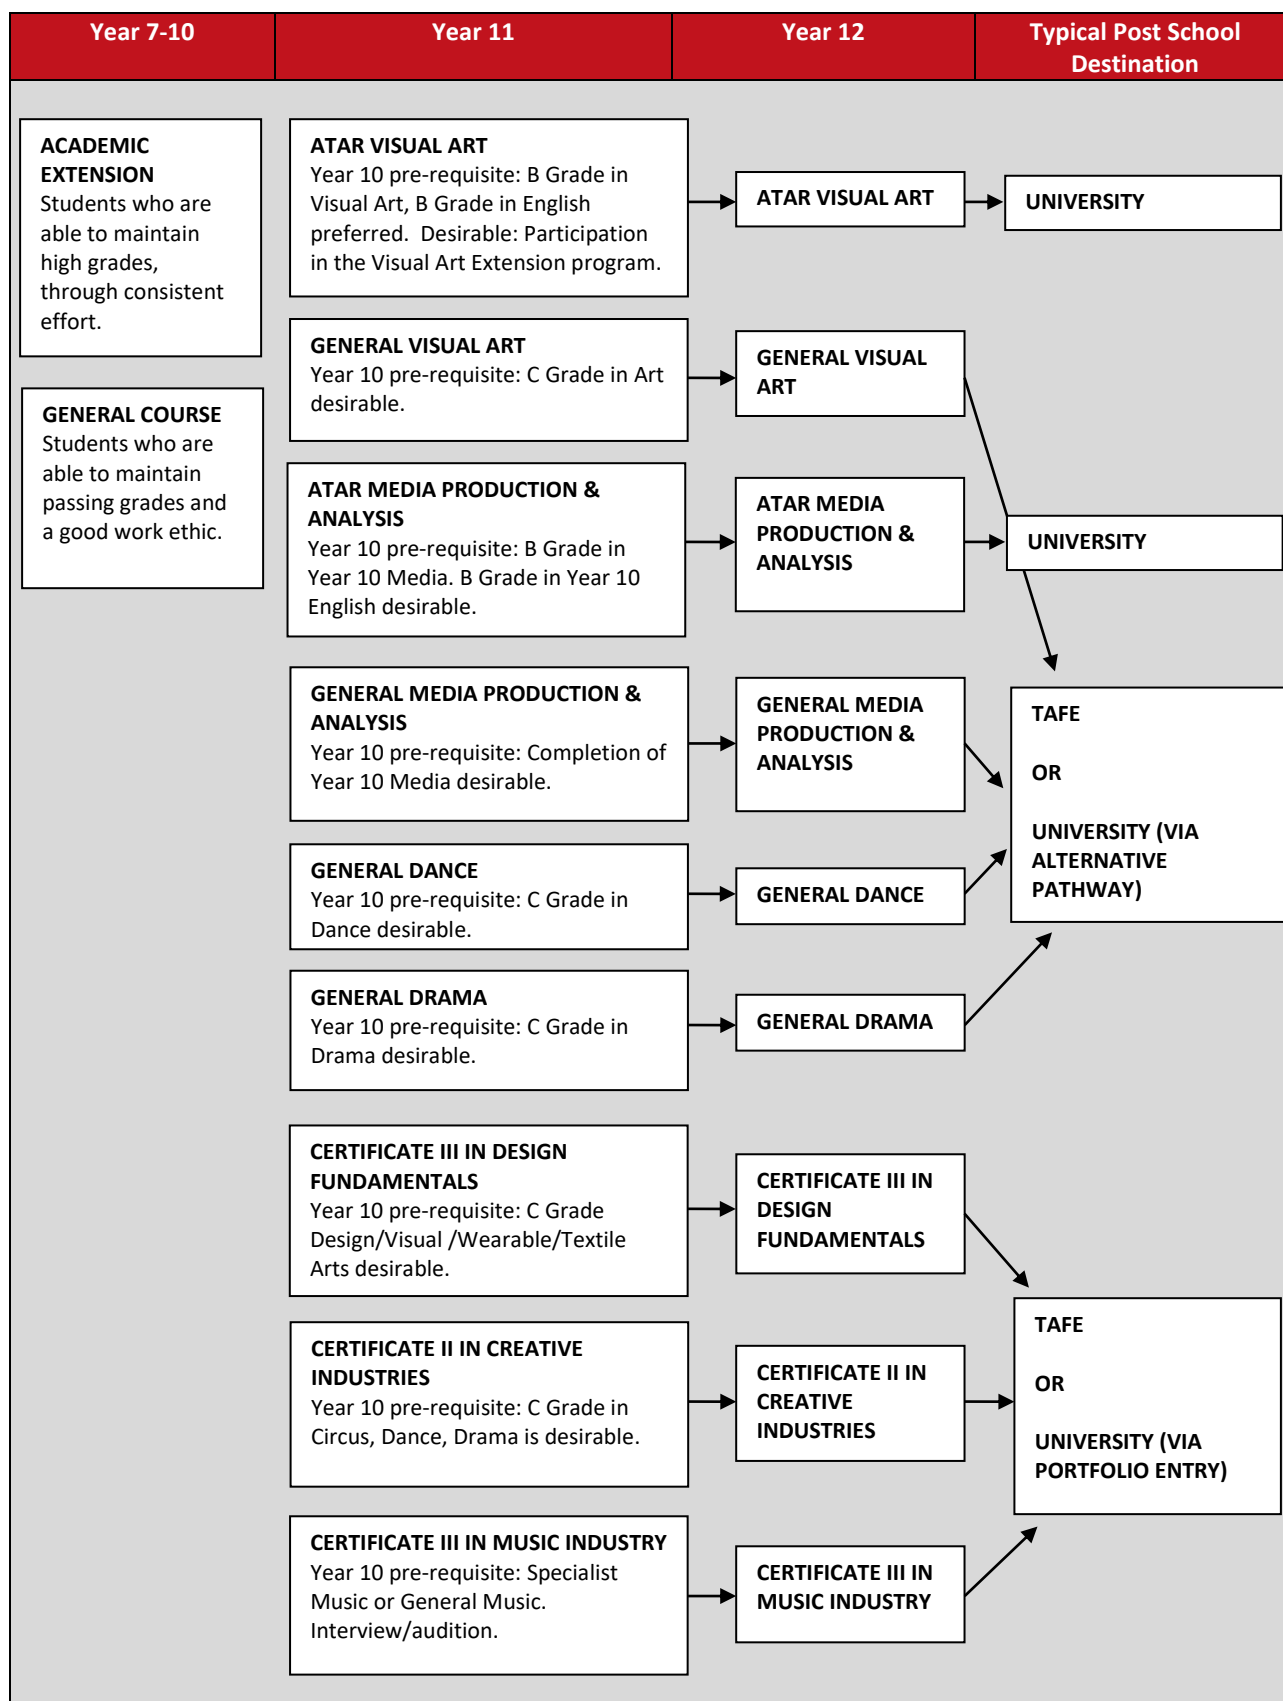

On successful completion of this qualification delivered over two years, students will receive their BSB20120 - Certificate II in Workplace Skills. This course is offered under the auspices of registered organisation: Skills Strategies International Pty Ltd RTO2401. The Learner Handbook can be downloaded from their website www.skillstrategies.wa.edu.au. In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

CAREER POSSIBILITIES	FURTHER STUDY	
Administrative Assistant Information Desk Clerk Receptionist Office Junior Clerical Officer Trainee Manager Front Line Manager Information Officer Human Resources Office Manager Senior Manager Business Owner Entrepreneur	TAFE Certificate III in Business Certificate IV in Business Management Diploma in Business Management	UNIVERSITIES Bachelor of Commerce Bachelor of Business Bachelor of Social Science (Sports Management) Bachelor of Education (Secondary Teaching)

THE ARTS LEARNING AREA

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

Visual Arts ATAR Units 1 & 2

Requirements

B grade or higher in Year 10 Visual Art; participation in the Art Extension Program is beneficial but not essential. B grade in Year 10 English is preferred but not essential.

What Is It All About?

In the Visual Arts ATAR course, students engage in traditional, modern and contemporary media and techniques within the broad areas of art forms. The course promotes innovative practice. Students are encouraged to explore and represent their ideas and gain an awareness of the role that artists and designers play in reflecting, challenging and shaping societal values. The Visual Arts ATAR course allows students to develop aesthetic understandings and a critical awareness to appreciate and make informed evaluations of art through their engagement of their own art practice and the work of others.

Why Should I Choose This Course?

This course will develop your abilities in creative and flexible thinking as well as learning how meaning can be created and recognise meaning from a broader range of symbols and nuances. This course leads to Visual Arts ATAR in Year 12.

CAREER POSSIBILITIES	FURTHER STUDY	
Artist Fashion Designer Illustrator Photographer Curator Art Teacher Art Historian Graphic Designer Gallery Assistant Art Critic Architect Production & Design (inc costume, design, props & scenery)	TAFE Various courses available in: Fashion and Textiles Visual Arts and Craft Graphic Arts Art Administration Furniture Industry and Interior Design Jewellery and Photography	UNIVERSITIES Curtin University of Technology Bachelor of Arts - Majoring in: Fine Art, Photography and Illustration Design, Fashion, Textiles, 3D Design, Digital Design, Interior Architecture or Creative Advertising and Graphic Design University of Western Australia Bachelor of Arts (Fine Arts) Edith Cowan University Bachelor of Arts (Contemporary Fashion and Textiles or Visual Arts) Bachelor of Production and Design

Visual Arts General Units 1 & 2

Requirements

- Successful completion of Year 10 Visual Art, Design and/or Wearable Art (C grade or above) is desirable.

What Is It All About?

In the Visual Arts General course, students engage in traditional, modern and contemporary media and techniques within the broad areas of art forms. The course promotes innovative practice. Students are encouraged to explore and represent their ideas and gain an awareness of the role that artists and designers play in reflecting, challenging and shaping societal values. Students are encouraged to appreciate the work of other artists and engage in their own art practice through portraiture and landscape.

Why Should I Choose This Course?

To challenge your current ideas about what you can create and achieve. This course assists you in developing your ability to make meaning from the art work in our world, present and past. This course leads to Visual Arts General in Year 12 and more self-directed tasks.

CAREER POSSIBILITIES	FURTHER STUDY	
Visual Artist (mixed media, artist, painter, printmaker) Community Arts Worker Community Arts Leader Art Critic	TAFE Various courses available in: Fashion and Textiles Visual Arts and Craft Graphic Arts	UNIVERSITIES Edith Cowan University Bachelor of Arts - Majoring in: Advertising, Animation, Art Object Design, Arts, Arts Promotion,

---	---	---

Media Production & Analysis ATAR Units 1 & 2

Requirements

Successful completion of and/or a 'B' grade or higher in Year 10 Media, plus a B grade in Year 10 English is preferred.

What Is It All About?

The ATAR Media Production and Analysis course is designed to enable students to participate in the future process of telling the stories of their lives and that of others. Students learn the skill to explore, experiment and interpret their world, while reflecting and analysing on contemporary life, the impact of media products and consider the important role of audiences. Through the production requirements students are able to demonstrate their understanding of the key concepts of media languages, representation, audience, skills and processes as well as express their creativity and originality. Students learn to make decisions about all aspects of production, including pre-production and post-production phases. This provides an opportunity for students to reflect on and discuss their own creative work, intentions and outcomes.

Why Should I Choose This Course?

Through production of media texts students will gain conceptual and process skills and an understanding of the many factors that shape media texts and the role this can play in the world.

CAREER POSSIBILITIES	FURTHER STUDY	
Journalism Web Design Graphic Designer Marketing/Advertising Film Production/Lighting Makeup/Costume and Effects	TAFE Certificate II in Creative Industries (Media) Certificate III in Creative Industries (Media) Certificate IV in Creative Industries (Media) Certificate IV in Communications and Media	UNIVERSITIES Bachelor of Communication Bachelor of Arts Bachelor of Creative Media

Media Production & Analysis General Units 1 & 2

Requirements

- Completion of Year 10 Media is desirable.

What Is It All About?

In the General Media Production and Analysis course of study, students explore media that range from traditional forms such as film, photography, newspapers, magazines, comics, radio and television to new and emerging multimedia technologies. Students gain an understanding of media language considering media forms, narrative, codes and conventions, representations and skills and processes.

Why Should I Choose This Course?

Through production of media texts students will gain conceptual and process skills and an understanding of the many factors that shape media texts.

CAREER POSSIBILITIES	FURTHER STUDY	
Camera Crew Sound Crew Graphic Designer Film Production/Lighting Advertising Makeup/Costume and Effects	TAFE Certificate II in Creative Industries (Media) Certificate III in Creative Industries (Media) Certificate IV in Creative Industries (Media) Certificate IV in Communications and Media	UNIVERSITIES Bachelor of Communication Bachelor of Arts

Dance General Units 1 & 2

Requirements

Successful completion of Year 10 Dance (C Grade or above) is desirable.

What Is It All About?

The Dance General course provides students with the opportunity to view and express ideas through a variety of genres, styles and forms. Students use critical decision-making skills in individual and group work. Students are provided with a range of tasks that provide them with the opportunity to use their creative processes, such as improvisation and the use of choreographic elements and devices to create individual and group pieces. They are required to draw on their own physicality and the interpretation of existing work of others to create their own choreographed works. The course requires participants to be involved in group and solo performances.

Why Should I Choose This Course?

Dance is dynamic and powerful. It enables students to develop the knowledge and skills to participate in a variety of dance routines and leads to further education and training in the performing arts industry. As an art form, dance encourages artistic creativity and the active use of the imagination. The study of dance acknowledges the interrelationship between practical and theoretical aspects — the making and performing of movement and the appreciation of its meaning. This unit includes developing basic levels of physical condition for dance performance and basic dance techniques, sourcing information on the history and theory of dance and applying it to students' own area of work.

Drama General Units 1 & 2

Requirements

Successful completion of Year 10 Drama (C Grade or above) is desirable.

What Is It All About?

Students participate in a range of activities of from creation, to performance and reflection. They explore and communicate ideas and learn particular processes and skills to enable them to work with a range of drama forms, styles, conventions and technologies. They reflect, respond and evaluate drama and become critical, informed audiences, understanding drama in the context of their own society and culture, drawing on a diverse range of drama from other cultures, places and times to enrich their intercultural understanding. Students will work independently and collaboratively, while developing skills in time management, initiative and interpersonal skills. The Drama General

course requires students to make informed judgements, using appropriate terminology and language to describe, analyse, interpret and evaluate drama, drawing on their understanding of both Australian and world drama practice.

Why Should I Choose This Course?

Drama is course that enables students to learn in variety of ways, both independently and cooperatively. Students gain skills in speaking in front of an audience, working as an effective team member as well as skills in observation, analysis and reflection. These skills cross boundaries, whilst ideal for anyone who wishes to enter the world of performing arts, it is also beneficial to anyone who will require public speaking or presentation abilities.

CUA30715 - Certificate III in Design Fundamentals (Fashion)

Note: This is a two-year course.

Requirements

Completion of Year 10 Design, Visual Art, Wearable Art or Textiles.

What Is It All About?

This is a two year course which suits creative individuals with an interest in Fashion. Students have the opportunity to complete selected units of competency and achieve a full Certificate III in Design Fundamentals. This course will provide students with the practical skills and knowledge to design and create original fashion garments, textiles and accessories. The course introduces students to various textile techniques (such as screen printing, fabric dyeing processes, batik and devore) allowing them to create innovative fabric that will be used in the production of garments and accessories. Students will also look at designers from around the world gaining insight into the fashion industry.

Why Should I Choose This Course?

On successful completion of this qualification delivered over two years, students will receive their CUA30715 - Certificate III in Design Fundamentals (Fashion). This course is offered under the auspices of registered organisation: North Metropolitan TAFE RTO52786. Student and Parent information can be found on their website <https://www.northmetrotafe.wa.edu.au>. In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

CUA30915 - Certificate III in Music Industry (Part A & B)

Note: This is a two-year course.

Requirements

- Successful completion of Year 10 Specialist Music.
- Students who did not complete Year 10 at CVC must sit a test and audition before entering this course.

What Is It All About?

This course will help students understand how they can turn their love of music into a career or income stream in the music industry.

This qualification will provide them the knowledge of copyright requirements, how to maintain and apply music industry knowledge and follow health, safety and security procedures in the music industry. Students will be trained in practical musicianship and performance skills, be introduced to a range of music technologies, study music theory, musical styles and song writing and develop an understanding of the inner workings of the music industry. They will be provided with a selection of the following electives: performing music as a soloist, plan, preparing and presenting a live audition program, preparing for self-performance, maintaining and expanding music knowledge, and critical listening skills. At the completion of this course, students will have the theoretical and practical skills required to work in the music industry.

Why Should I Choose This Course?

On successful completion of this qualification delivered over two years, students will receive their CUA30915 - Certificate III in Music Industry. This course is offered to students under the auspices of the College of Sound and Music Production RTO41549. Students and parents are welcome to contact the RTO for confirmation of this program by phone or email.

CUA20215 - Certificate II in Creative Industries

Note: This is a two-year course.

Requirements

Students need to have successfully undertaken Drama, Dance, or Circus in Year 10 (preferably having achieved a 'C' Grade or above) or have satisfactory involvement in the Performing Arts outside of school.

What Is It All About?

A Certificate II in Creative Industries will equip you with industry knowledge and valuable learning opportunities for Events, Stage, and Management and help you develop employable skills for the Arts and Entertainment Industry.

The Certificate II in Creative Industries will give you the opportunity to be involved in hands-on practical activities such as designing and running an event, project management, mentoring others, designing and presenting, broadcasting/publication/advertising content, and creating and maintaining digital content (film). It has a broad range of units that allow for students to draw upon their knowledge from any of the performing and visual arts fields.

Why Should I Choose This Course?

Do you see yourself with a career, or have an interest in: Special effects, festivals, theatres, television, events, arts and talent agencies, live music venues, clubs, digital production companies, public relations, or film/movies? Then a Certificate II in Creative Industries, is an excellent starting point to these and more job opportunities.

The Certificate II in Creative Industries is a fun, creative, hands-on practical qualification, which can help lead to direct employment in the Arts and Entertainment Industry and/or Tertiary courses such as Costume, Design, Lighting, Props, Sound, Stage Management, Screen Arts (film and television), events management, special effects design, technical production, and Arts Management.

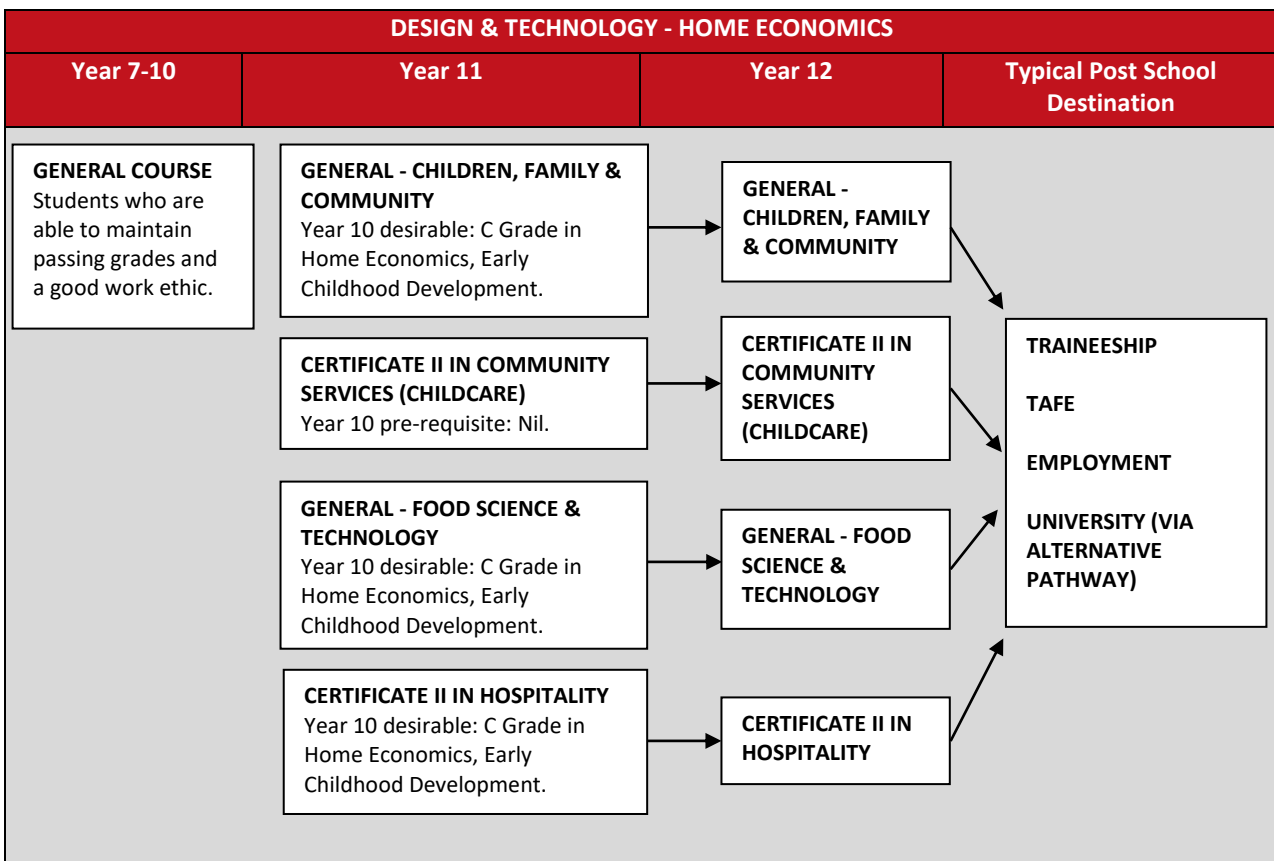

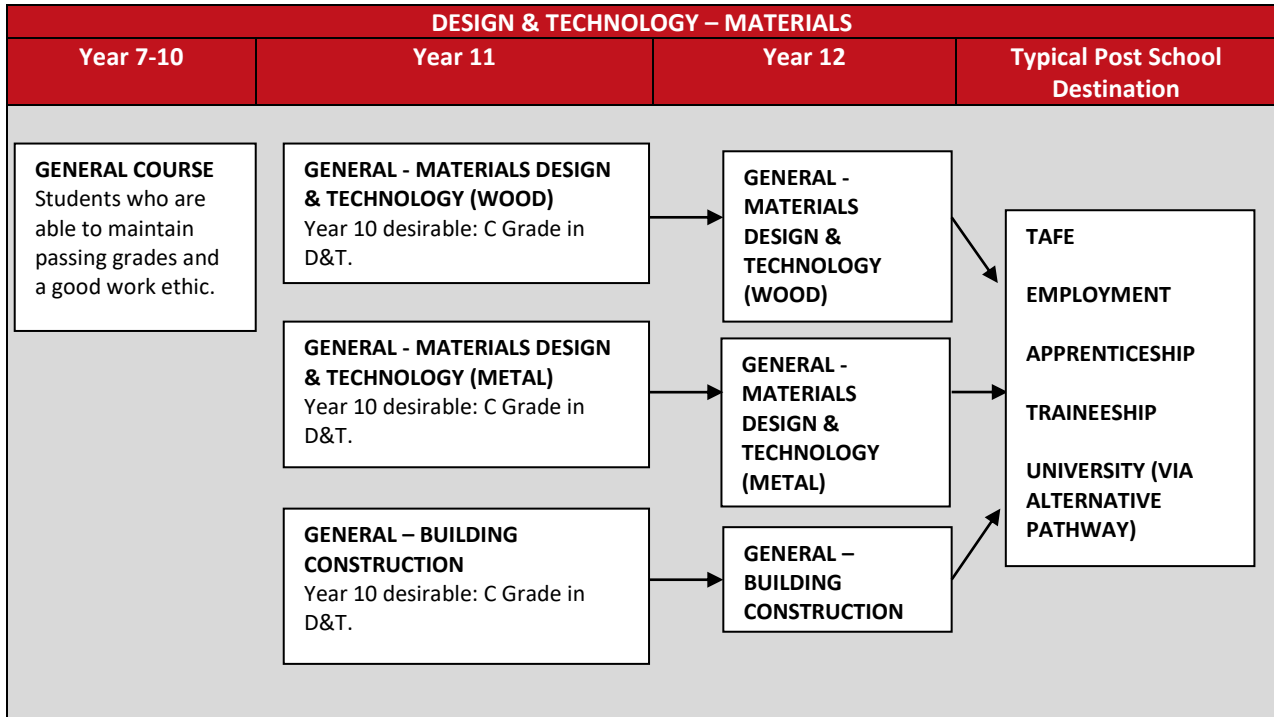

On successful completion of this qualification delivered over two years, students will receive their CUA20215 - Certificate II in Creative Industries. This course is offered under the auspices of registered training organisation: North Metropolitan TAFE (RTO52786). Student and Parent information can be found on their website <https://www.northmetrotafe.wa.edu.au>. In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

TECHNOLOGIES LEARNING AREA

Course Pre-Requisites & Student Pathways

All students, regardless of their pathways, need to strive to achieve to their potential. Below is a list and details on such pathways, to be used as a typical guide only.

Building & Construction General Units 1 & 2

Requirements

- Although there are no prerequisites for this subject, it is desirable students demonstrate at least a C grade in Year 10 Design and Technology or equivalent.

What Is It All About?

The focus for this unit is introduction to building and construction. The unit explores properties of common construction materials. Basic plan reading is practiced with application in building, as well as skills in areas of content, such as working with materials. The unit explores processes drawn from building projects. A variety of materials are worked with and a range of practical skills are developed.

Why Should I Choose This Course?

Successful completion of this course provides students with the opportunity to gain an apprenticeship in the building trade. This course gives students a general introduction into building construction practices and builds their skill base for possible apprenticeship entry.

CAREER POSSIBILITIES	FURTHER STUDY
All trades	Certificate I – V in General Construction

Metal – Materials Design & Technology General Units 1 & 2

Requirements

- Although there are no prerequisites for this subject, it is desirable that students demonstrate at least a C grade in Year 10 Design and Technology or equivalent.

What Is It All About?

- Use an array of manipulative skill processes and techniques. There are a number of set projects which will enhance the students' skills in bench work, sheet metal fabrication, welding and machining.
- Design techniques for alloys and pure metals.
- Projects such as storage containers, production of small hand tools, tool boxes, office products, basic furniture and outdoor/garden projects.

Why Should I Choose This Course?

Besides leading to employment opportunities in the metal and engineering industries this course will also develop skills transferable to home handyman situations.

CAREER POSSIBILITIES	FURTHER STUDY	
Fitting and Turning Machinist Mechanical Fitter Boilermaker Blacksmith Electroplater Engineering Pattern Maker Foundry Worker Sheet metal Worker Welder- First Class	TAFE Certificate II in Engineering Certificate II in Automotive Certificate III in Engineering Certificate III in Automotive Certificate III in Electro-technology Certificate IV in Electro-technology	UNIVERSITIES Bachelor of Engineering

Wood – Material Design & Technology General Units 1 & 2

Requirements

- Although there are no prerequisites for this subject, it is desirable that students demonstrate at least a C grade in Year 10 Design and Technology or equivalent.

What Is It All About?

An introduction to principles, practices and fundamentals of design and concepts related to designing for individuals and markets. Students learn to communicate aspects of the design process while making what they design. The origins, classification properties and purposes of materials is investigated. Students are introduced to a range of technology skills, generate ideas and realise these ideas through their design projects. Suggested projects include small personalised furniture items, household products or frame construction projects.

There are a number of set projects which incorporate design, cabinet making, machining and finishing techniques. Students will design and produce products to their own specifications and needs.

Why Should I Choose This Course?

This course could give students the opportunity of an apprenticeship in one of the many divisions of the building industry.

CAREER POSSIBILITIES	FURTHER STUDY	
Furniture Maker Cabinet Maker Roof Carpenter Furniture Polisher Furniture Upholsterer Wood Machinist Boat Building Carpenter	TAFE Certificate II in Furnishings Certificate III in Furnishings Certificate IV in Furnishings Carpentry Apprenticeship	UNIVERSITIES Bachelor of Engineering Bachelor of Arts

Children, Family & Community General Units 1 & 2

Requirements

- Although there are no prerequisites for this subject, it is desirable students demonstrate at least a C grade in Year 10 Home Economics or Early Childhood Development.

What Is It All About?

Caring for a child is one of the most rewarding experiences anyone can undertake. Units 1 and 2 provide students with knowledge and skills to prepare for this life changing experience. This course will include both theory and practical components. An understanding of reproduction/pregnancy, how a child grows and develops, family types and an awareness of services and networks to support and assist families are an important focus of the course.

Students will have an opportunity to care for a virtual baby, develop practical resources for new parents and interact with children using the College's play facility for children. This course is an excellent choice for students with a genuine interest in children and for those planning a career working with 0-5yr olds.

Why Should I Choose This Course?

This course offers students a broad perspective of responsible care giving and parenting and serves as an introduction to further studies in service occupations indicated below.

CAREER POSSIBILITIES	FURTHER STUDY	
Social Worker Pre-School Teacher Day Care Worker/Operator Nanny Parenting Advisor Education Support Officer Entertainer	TAFE Certificate II in Community Services (Childcare) Certificate III in Community Services (Childcare) Certificate II in Health Services Certificate III in Health Services Certificate II in Human Services	UNIVERSITIES Bachelor of Education Bachelor of Social Work Bachelor of Health Science Bachelor of Nursing

CHC22015 - Certificate II in Community Services offered in a Childcare Focus

Note: This is a two-year course.

Requirements

- None

What Is It All About?

This qualification will provide students with the practical skills and knowledge to assist in the social, physical and educational needs of infants and young children. Students will experience an introductory course in childcare. Over two years you must complete 11 units, which may include:

- Prepare for work in the Community Services Industry
- Communicate with people accessing the services of the organisation
- Follow the organisation's policies, procedures and programs
- Interact effectively with children
- Ensure children's health and safety
- Follow OHS procedures
- Contribute to provision of nutritionally balanced food in a safe and hygienic manners
- Communicate with children
- Care for children
- Work with others

Why Should I Choose This Course?

Students will learn how to care for and educate young children through hands on practical experience and child theory based research in the area of health, communication, nutrition and working with others, in a very student friendly, fun and educational environment.

On successful completion of this qualification delivered over two years, students will receive their CHC22015 - Certificate II in Community Services. This course is offered under the auspices of registered organisation: Australian Institute of Education and Training RTO121314. Student and Parent information can be found on their website www.aiet.edu.au. In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

CAREER POSSIBILITIES	FURTHER STUDY	
Childcare worker Out of school care worker Recreation centre worker Childcare centre manager Social worker Child Psychologist	TAFE Certificate III in Community Services Certificate III in Children's Services Certificate IV in Children's Services (Outside School Hours Care) Diploma of Children's Services (Early Childhood Education and Care) Certificate IV in Child, Youth and Family Intervention Diploma of Child, Youth and Family	UNIVERSITIES Bachelor of Education (Early Childhood Development) Bachelor of Social Work Bachelor of Health Science (Nurse) Bachelor of Social Science Occupational Therapy Physiotherapy

Food Science & Technology General Units 1 & 2

Requirements

- Although there are no prerequisites for this subject, it is desirable that students demonstrate at least a Grade C in Year 10 Home Economics or Early Childhood Development.

What Is It All About?

The focus for this unit is all about food and the individual. Students explore ways in which individuals select and use foods, and how this is determined by family customs, lifestyle, and budget, availability of food and preparation skills. Students will learn about the availability and variety of local foods. Students will identify their personal food requirements, and the influence of food choice on health. Students will demonstrate safe food handling procedures and work individually and in teams to generate and communicate ideas when producing and storing food products.

Why Should I Choose This Course?

To become confident and independent in following recipes, food preparation and for catering for friends and family. The skills you gain will give you the edge when applying for jobs in the hospitality industry.

CAREER POSSIBILITIES		FURTHER STUDY	
Head Chef Pastry Chef Food Stylist Bar Manager Duty Manager	Hotel Manager Housekeeper Restaurant Manager Barista	TAFE Certificate III in Hospitality Diploma of Hospitality	UNIVERSITIES Bachelor of Business (Hospitality Management)

SIT20316 - Certificate II in Hospitality

This is a two-year course delivered at Canning Vale College in a fully equipped Industrial Kitchen.

Resources: All materials and equipment will be provided to the students.

Fees: \$365 to cover the cost of resources.

Requirements

- All though there are no prerequisites for this subject, it is desirable that students demonstrate at least a C grade in Year 10 Home Economics or Early Childhood Development.
- Students are required to complete 120 hours of workplace learning in the hospitality and service industry.

What Is It All About?

This course aims to provide students with a range of vocationally orientated skills which enable participants to gain employment within the hospitality industry. Students are provided with training in such areas as occupational health and safety, cleaning and basic food preparation skills which equip them for a range of employment opportunities in commercial kitchens.

Why Should I Choose This Course?

This course is an excellent introduction to the employment pathway of Hospitality. On successful completion of this qualification delivered over two years, students will receive their SIT20316 - Certificate II in Hospitality. This course is offered under the auspices of registered training organisation: Skill Hire RTO0361. Student and Parent information can be downloaded from their website www.skillhire.com.au.

CAREER POSSIBILITIES		FURTHER STUDY	
Head Chef Pastry Chef Food Stylist Bar Manager Duty Manager	Hotel Manager Housekeeper Restaurant Manager Barista	TAFE Certificate III in Hospitality Diploma of Hospitality	UNIVERSITIES Bachelor of Business (Hospitality Management)

Computer Science General Units 1 & 2

Requirements

- Although there are no prerequisites for this subject, it is desirable that students should demonstrate at least a C grade in English and have a sound computing knowledge.

What Is It All About?

The Computer Science General course focuses on the fundamental principles, concepts and skills within the field, and provides students with opportunities to develop flexibility and adaptability in the application of these in the roles of developers and users. The underpinning knowledge and skills in computer science are practically applied to the development of computer systems and software, while the connectivity between computers, peripheral devices and software used in the home, workplace and in education are examined. Students develop problem-solving abilities and technical skills as they learn how to diagnose and solve problems in the course of understanding the building blocks of computing.

Why Should I Choose This Course?

Gain further employment in the computing industry. Further studies at TAFE. Can lead to ATAR and University entrance.

CAREER POSSIBILITIES		FURTHER STUDY

ICT20120 - Certificate II in Applied Digital Technologies (IDMT)

Note: This is a two-year course.

Requirements

- Although there are no prerequisites for this subject, it is desirable that students demonstrate at least a C grade in Year 10 IDMT or Electronic Game Design.

What Is It All About?

This qualification will provide students with the practical skills and knowledge to operate the essential functions of software applications. Units studied within the course include:

- Hardware and Peripherals
- Administer Network Peripherals
- Install and configure OS and essential software
- Workplace Health & Safety
- Work and Communicate Effectively in an IT Environment
- Networking Fundamentals
- Build and Install a Wired Network
- Digital Media and Social Media Tools
- Develop Webpages using HTML

Why Should I Choose This Course?

On successful completion of this qualification delivered over two years, students will receive their ICT20120 - Certificate II in Applied Digital Technologies. This course is offered under the auspices of registered training organisation: Skills Strategies International RTO2401. Further information can be found on their website

www.skillstrategies.wa.edu.au . In addition to this, students are satisfying School Curriculum and Standards Authority requirements.

VOCATIONAL EDUCATION & TRAINING (VET)

Workplace Learning (ADWPL)

Workplace Learning is an Authority-developed Endorsed Program which provides an opportunity for a student to demonstrate, and develop increasing competence in the core skills for work. It is a fantastic opportunity for students to improve their workplace and employability skills whilst providing them with an opportunity to work in a range of industry areas. Workplace Learning is not compulsory for students. However, there is a compulsory workplace learning component in both Certificate II in Community Service (Childcare) and Certificate II in Hospitality. If you choose either of those, you must also choose workplace Learning. Workplace Learning contributes towards the WACE.

To complete this Endorsed Program, a student works in a real workplace environment to develop a set of transferable workplace skills. The student must record the number of hours completed and the tasks undertaken in the work place in a Workplace Learning Logbook. The student must also provide evidence of his/her knowledge and understanding of the workplace skills by completing a Workplace Learning Skills Journal after each 55 hours completed in the workplace. Students are encouraged to find their own workplace but if they are unable to, the college **MAY** be able to assist. Enrolment into ADWPL costs \$50 per year.

Part Time/Casual Employment Work Hours

Students have authorisation from the school to use their currently rostered part time or casual employment hours to contribute towards their workplace learning. A Registration form (collected from the VET/WPL office) needs to be signed by the employer and submitted by the student to the WPL Coordinator. A logbook will be issued to the student when the form is returned to school. Students will be required to enrol in ADWPL.

Workplace Learning is not recommended for ATAR students unless they have a part time job, or a job during school holidays. Time off during school hours is not permitted.

School Based Traineeship or Apprenticeship (SBT/SBA)

Students can take part in SBT's or SBA's which allow them to take part in an apprenticeship or traineeship while completing their WACE. Students will be both part time employees and full time students, therefore they will be paid for their employment and receive valuable training and still be able to complete their secondary graduation. There are a large number of traineeships and apprenticeships available. Students will be required to enrol in ADWPL, and will take part in these during school hours only.

The benefit to students is that they:

- Get paid to work
- Gain Nationally recognised qualifications
- Gain valuable skills and experience in the workplace
- Complete their WACE

There are a large number of traineeships and apprenticeships available. You can access the Department of Training and Workforce Development's Apprenticeship Office to find out more information.

Pre-Apprenticeship's are ideal for students who wish to obtain an apprenticeship once they finish Year 11 or 12. Students are provided with an introduction into the trades and take place in organised workplace learning.

Vocational Education and Training Delivered to Secondary Students

Students are given the opportunity to apply for Certificate courses delivered off site. Students attend TAFE or a private Training Provider one or two days per week and complete a Certificate course that may assist them in entering employment or further study.

Students undertake the training while still completing their WACE. Students will ideally have passed Year 10 with a C grade average or better and must be work ready.
