## COURSE OUTLINE

### BIOLOGY – ATAR YEAR 11: 2022

### UNIT 1 AND UNIT 2

| Term | Week | Topic   | Key teaching points / Syllabus Content   | Assessment   |
|------|------|---|--|--|
|      |      | Activity: Fish dissection<br>Chapter 12 Review questions<br>Chapter 12 Practice exam questions  | <ul style="list-style-type: none"> <li>In animals, the transport of materials within the internal environment for exchange with cells is facilitated by the structure of open and closed circulatory systems according to the different metabolic requirements of organisms and differing environments</li> </ul>  |  |
| 4    | 2-4  | <b><u>Plant Systems</u></b><br><b>13.1 Vascular plant structure and function</b><br>Question set 13.1<br><b>13.2 Plant gas exchange</b><br>Question set 13.2<br><b>13.3 Plant transport</b><br>Question set 13.3<br>Case study: Algae architecture<br><b>13.4 Australian terrestrial plant adaptations</b><br>Question set 13.4<br>Scientific literacy: Improving plant growth under drought conditions<br>Investigation 13.1 Plant transport systems<br>Investigation 13.2 Leaf structure<br>Chapter 13 Review questions<br>Chapter 13 Practice exam questions | <b><u>Science understanding</u></b><br><i>Multicellular organisms</i> <ul style="list-style-type: none"> <li>In vascular plants, gases are exchanged via stomata and the plant surface and does not involve the plant transport system</li> <li>In vascular plants, transport of water and mineral nutrients from the roots occurs via xylem through root pressure, capillary action (adhesion and cohesion of water molecules), transpiration; transport of the products of photosynthesis and some mineral nutrients occurs by translocation in the phloem</li> <li>Terrestrial Australian plants are adapted to minimise water loss in an arid environment</li> </ul> | <u>Task 11: TEST</u><br><u>Multicellular</u><br><u>Organisms</u> |
| 4    | 5    |   | <u>Revision</u>  |  |
| 4    | 6-7  |   | <u>Semester 2 examination</u>  | <u>Task 12: Semester 2 Exam</u>                                  |
| 4    | 8    |   | <u>Examination feedback</u>  |  |
